

### **Publishing and reviewing your lists**

Your list must be 'Published' in order for students to view it.

Publishing your list also alerts the library and allows us to ensure resources are available for students

Library staff will process the list and purchase resources as required.

Library staff will update the Library List if necessary. If you have any queries, please contact us providing the unit code.

Any additional items added to your list after publication, will automatically be sent to the library for review.
