

Postgraduate Virtual Employer Networking Event

Thursday 5th August 2021

Between 10am to 5pm

Pre-Event Planning

Research the organisations attending

Look through this programme, highlight the employers that interest you and visit their website. They really appreciate students who have researched them in advance, and it prepares you to ask the questions that matter to you. If you are no longer able to attend and have booked a space on [MyFuture](#), please cancel.

On the day: There will be University staff from both the School of Management and the central Careers Service present at the event to provide advice and support.

List of employers so far:

- [4C Associates](#)
- [Arke](#)
- [Atmo Technology](#)

4C Associates

www.4cassociates.com/4c-career

Organisation: We are a leading management consulting firm. We help our clients operate more efficiently and compete more effectively by controlling costs, improving how they operate their processes and opening up opportunities for growth. We do this through providing insight, business transformation, cost reduction and service delivery.

Opportunities: Graduate, Internship and placement programmes are all open for applications with a range of start dates. Graduate will be in September 2022 with the internships and placement programmes flexible to the candidate.

Target audience: *All Bath disciplines* are welcome to attend the session as we have a range of projects and offerings.

How to Apply: www.4cassociates.com/4c-career

Are you able to consider applications from International Students? Yes.

To sign up to attend this event, please see [MyFuture](#)
Please also see our data statement at [privacy policy](#) | [4C Associates](#)

Arke

www.arkeltd.co.uk

Organisation: Arke is a small consultancy providing analysis and decision support, primarily to the Defence Industry. The analysis we provide includes cost estimating and modelling, risk, schedule and benefits. Our analysis methods are applied to a wide range of novel technology and research topics. Recent topics have included Augmented Reality, Additive Manufacturing, Robotics and Autonomy, Advanced Forensics and usage of Genetic Data.

Opportunities: Consultant: delivering evidenced based decision-making solutions to our customers - you will receive 'on-the-job' training, support and coaching to problem solve in a multitude of ways: understanding the scope of research technology, estimating costs of complex systems, developing analysis tools and techniques and providing advice and support to our customers. There is no 'average' day in Arke, you could be spending the day at the office (or virtually) discussing technologies and developing analytical methods with colleagues, undertaking detailed data analysis or working at a customer's site building relationships with high-ranking military and civil customers. Applications are ongoing.

Target audience: All Bath disciplines.

How to Apply: Please email arkerecruitment@arkeltd.co.uk with a covering letter and CV.

Are you able to consider applications from International Students? No.

To sign up to attend this event, please see [MyFuture](#)

Atmo Technology

<https://atmotech.co.uk>

Organisation: We're a Bristol-based tech startup that monitors air quality conditions at a wide variety of locations, with a reputation for innovation, integrity and customer service. We help identify and implement measures to reduce airborne particles and minimise exposure to workers and the general public. Our approach to tackling air quality problems follows a two-step process: effective monitoring techniques, and sophisticated data analysis.

Opportunities: We're looking for enthusiastic programmers, comfortable with Python and C, to join our team and help prevent site personnel from being exposed to life threatening working conditions. Our openings include: - Software engineer, focusing on building machine learning algorithms with our data - Data analyst, focusing on interpreting our data and presenting the results intuitively for clients - Hardware engineer, focusing on R&D of our sensors and integration with our online portal. We work with Google Cloud Platform (GCP), not required however preferential that you are comfortable with this platform. We are happy to provide training in GCP. Ability to lead self, and able to manage own time while working for multiple clients which may have different needs in terms of data analysis and presentation.

Target audience: Faculty of Engineering and Design & Faculty of Science
Start dates: 2021/2022 (*flexible*).

How to Apply: Follow this [link](#) and keep an eye on our LinkedIn [page](#).

To sign up to attend this event, please see [MyFuture](#)

BMT Defence & Security UK

www.bmt.org

Organisation: We are a leading international design, engineering, science and risk management consultancy with a reputation for engineering excellence. We're driven by a belief that things can always be better, safer, faster and more efficient. With around 1,500 professionals located in 47 offices in the Americas, Asia, Australia and Europe, we draw upon a wide range of experience and expertise to provide high-quality, high-value products and services.

Opportunities: Graduate Management Consultant. Wider vacancies also [available](#).

Target audience: Engineering – Architecture & Civil / Electronic & Electrical / Mechanical
HSS – Economics / Politics / Psychology
Management – Accounting, Finance & Law / Marketing, Business & Society / Information, Decisions & Operations / Strategy & Organisation
Science – Computer Science / Mathematical Science / Physics

How to Apply: www.bmt.org/careers/vacancies

Are you able to consider applications from International Students? No.

Capgemini Invent

www.capgemini.com/gb-en/careers/shape-your-future-at-capgemini-invent

Organisation: As the digital innovation, consulting and transformation brand of the Capgemini Group, Capgemini Invent helps CxOs envision and build what's next for their organizations. Located in more than 30 offices and 10 creative studios around the world, its 6,000+ strong team combines strategy, technology, data science and creative design with deep industry expertise and insights, to develop new digital solutions and business models of the future.

Opportunities: We are looking for candidates with a proven track record of delivering business value, who enjoy working collaboratively with clients and have a passion for developing people. We need strategic thinkers who are fuelled by solving complex problems as part of a results-driven, supportive team. In particular, we're looking for talented individuals to join us in our Corporate Experience and Workforce & Organisation Capability Units, across the Enterprise Model & Strategy, Workforce Transformation, Employee Experience & HR and Programme & Change Acceleration teams. Start dates are flexible, and can be discussed during the recruitment process. Closing dates: N/A.

Target audience: All Bath disciplines.

How to Apply: Vacancies are posted on our [website](#), and also on [LinkedIn](#).

To sign up to attend this event, please see [MyFuture](#)

CEN-ESG

www.cen-esg.com

Organisation: CEN-ESG helps companies optimise their ESG performance and disclosure. We do this through bespoke roadmaps and a tailored approach to individual company requirements underpinned by our proprietary, sector-specific Assessment Tool. We provide high quality advice with actionable recommendations and hands-on support to address clients' stakeholder engagement needs. We are a dynamic and fast-growing team and are based in London.

Opportunity: Associate. We are looking for a recent Graduate or someone with a couple of years of experience to join our growing CEN-ESG team as an Associate.

The job offers a wealth of opportunities for those able to work independently with strong analytical skills and a high standard of data accuracy and attention to detail. Background in Economics, Mathematics or Sustainability is preferred.

Responsibilities include but are not limited to:

- Collect and interpret listed company quantitative and qualitative ESG data
- Perform assessments of listed companies' ESG disclosure and performance using our proprietary ESG Assessment Tool
- Produce written reports and presentations for internal and external use
- Assist with the development of client ESG disclosure and internal processes
- Support senior team members and monitor ESG sector developments

Skills and experience you will need:

- Quick learner, with a high standard of data accuracy and attention to detail

- Ability to work in a timely manner within a fast-paced, dynamic environment
- Good level of writing skills
- Strong Microsoft Excel skills
- Desire to learn more about the ESG space or develop an existing interest

Target audience: Economics/Mathematics or Sustainability backgrounds. Business/Management.

How to Apply: Email CV & cover letter to: careers@cen-esg.com

Are you able to consider applications from International Students? No.

To sign up to attend this event, please see [MyFuture](#)

CIL Management Consultants

<https://cil.com>

Organisation: CIL is a consulting firm with a market-leading position within our niche. Most of our engagements involve M&A, primarily to advise private equity firms who are looking to invest in high growth businesses in the UK, Europe and the US. We also provide strategy consulting to a variety of companies. We work across a wide range of sectors. Although we work in structured project teams we are socially very equal and inclusive. There are no corner offices, no cliques – we work in open-plan offices.

Opportunities: We are looking for Analyst candidates to join our firm in September 2022. Applications open this September. The Analyst role is the first stage in a strategy consultant's career. It is a demanding job – we will expect a lot from you, but you will receive first class training and gain valuable experience with which to build a successful career. CIL Analysts are an integral part of our project teams, and over their first year will be expected to: grasp new business models quickly, typically working on a different project every 4-6 weeks; take responsibility for testing commercial hypotheses through collecting and interrogating primary and secondary research; carry out rigorous quantitative analysis of industry and internal company datasets; play a key role in debating and refining hypotheses with the project manager and project leader, drafting clear & concise output for inclusion in the final report once agreed; get in front of clients and help present our findings; coach others.

Target audience: All Disciplines.

How to Apply: Follow the link on our [Careers page](#) when it goes live later this year.

Are you able to consider applications from International Students? Yes.

To sign up to attend this event, please see [MyFuture](#)

Element Energy

www.element-energy.co.uk

The logo for Element Energy, featuring the word 'elementenergy' in white lowercase letters on a dark blue rectangular background.

Organisation: Element Energy is a dynamic and growing strategic energy consultancy. We specialise in the intelligent analysis of low carbon energy. Since forming in 2003, we have gathered a team of experts based in Cambridge, London, York and Lille who provide robust technical insights into low carbon energy markets.

Opportunities: Consultants, Consultant/Project Managers and Consultant/Software Developers.

Target audience: All engineering and science disciplines.

How to Apply: Apply for the position by sending a cover letter and CV to: careers@element-energy.co.uk

Are you able to consider applications from International Students? Yes.

To sign up to attend this event, please see [MyFuture](#)

IBM

www.ibm.com/uk-en/employment/graduate

Organisation: IBM are one of the world's largest technology companies. IBM offer Consulting and Technology services, with a focus on cloud technology. Read more about IBM [here](#).

Opportunities: IBM offer a range of graduate opportunities from Consulting to Software Development. IBM has won TARGET jobs graduate employer of the year award in 2018, 2019 and 2020. IBM encourage applicants from all backgrounds and disciplines. Timelines for applications vary by role, details are available on the website.

How to Apply: Please register your interest for the opportunities you are interested in on the [website](#), along with more details about the recruitment process.

Are you able to consider applications from International Students? Yes.

To sign up to attend this event, please see [MyFuture](#)

Lancia Consult

www.lanciaconsult.com

Organisation: Lancia Consult is a young, fast-growing global management consultancy with an amazing team from top tier consulting firms and industry giants. We are different, we are more than just a consulting business, we try new things, we're small but global and we take social impact seriously. We have a genuine focus on personal development and career progression with a competitive benefits package we are proud of.

Opportunities: Consultant and Senior Consultant roles.

Target audience: All Disciplines.

How to Apply: <https://lanciaconsult.bamboohr.com/jobs>

Are you able to consider applications from International Students? No.

To sign up to attend this event, please see [MyFuture](#)

Office for National Statistics (ONS)

www.ons.gov.uk

Organisation: Our main responsibilities are collecting, analysing and disseminating statistics about the UK's economy, society and population. Our range of economic, social and population statistics are published in over 600 releases a year.

Opportunities: Please see our [website](#) for the list of opportunities available.

Target audience: Primarily we look at Economics grads, Social Sciences, Psychology, any degree with a large Statistics element and Computer Science.

How to Apply: www.ons.gov.uk/aboutus/careers . Candidates must satisfy the Civil Service Nationality rules.

Are you able to consider applications from International Students? If candidates hold the graduate visa, they have right to work in the UK and therefore that would not be a barrier to gaining employment in the Civil Service, subject to all other right to work checks.

To sign up to attend this event, please see [MyFuture](#)

PA Consulting

www.paconsulting.com/careers/early-careers

Organisation: An innovation and transformation consultancy, we believe in the power of ingenuity to build a positive human future in a technology driven world. We're different from other consultancies because we spend our time combining innovative thinking and breakthrough technologies to progress further, faster. And now we're looking for **graduates** with a fresh take on our business to continue this legacy. With 25 offices in 14 different countries, we're a truly global firm. And since partnering with The Carlyle Group – one of the world's most successful investors – we're seeing our international reach extend to more markets and business opportunities than ever before.

Opportunities: We offer summer internships, placements and graduate opportunities across technical and non-technical roles.

Target audience: All disciplines. *We would particularly like to hear from students studying Chemistry, Physics and Bio/biochemistry for our Applied Sciences roles.*

How to Apply: www.paconsulting.com/careers/early-careers

Are you able to consider applications from International Students? No.
