## New Framework for Assessment: Assessment Regulations: Phase 4 for Continuing Professional Development framework programmes

#### Introduction

#### Designation

- 1. This document will be referred to as the New Framework for Assessment: Assessment Regulations: Phase 4 for Continuing Professional Development framework programmes. It will continue to be known as such until the end of transitional arrangements during which some students of the University will have their assessment conducted and awards made under other regulations. At such time, a suitable new title will be chosen.
- 2. The formal abbreviation for this document will be: NFAAR-CPD.

#### Scope: timing and integration with University Regulation 15

- 3. With effect from 1 August 2011, the NFAAR-CPD will form part of the University's regulations for the assessment of Undergraduate and Taught Postgraduate programmes, Foundation degree programmes, Honours Year programmes, and Continuing Professional Development (CDP) framework programmes (see Regulation 15, <a href="http://www.bath.ac.uk/regulations/">http://www.bath.ac.uk/regulations/</a>). It will constitute the regulations and procedures applicable to the **relevant students** defined in Regulation 15.1(d) who are on the **relevant programmes** defined in Regulation 15.1(f), for whom the following sections of Regulation 15 will not apply: 15.2, 15.3, 15.4(a) & (b), and 15.7.
- **4.** The manner of the integration of the NFAAR-CPD with Regulation 15 is described in Appendix 1: Integration of the NFAAR with University Regulation 15. The NFAAR-CPD is part of the NFAAR supplement to the University Regulations, and will normally be produced separately from them.
- **5.** The following sections of Regulation 15 will apply to relevant students under the NFAAR-CPD: 15.1, 15.4(c), 15.5, and 15.6.

#### Scope: relationship to University Quality Assurance Code of Practice Statements

**6.** QA3 Approval of New Programmes of Study relates to the NFAAR-CPD in respect of its definitions of quantities and levels of credits required for specified awards, and wider programme design considerations in the context of assessment regulations.

See: http://www.bath.ac.uk/quality/documents/QA3.pdf.

**7.** QA6 Placement Learning relates to the NFAAR-CPD in respect of the definitions of types of placements.

See: http://www.bath.ac.uk/quality/documents/QA6.pdf.

**8.** QA12 External Examining (Taught Provision) relates to the NFAAR-CPD in respect of the role of external examiners.

See: http://www.bath.ac.uk/quality/documents/QA12.pdf.

**9.** QA16 Assessment, Marking and Feedback relates to the NFAAR-CPD in respect of detailed descriptions of marking, moderation, and feedback to students.

See: http://www.bath.ac.uk/quality/documents/QA16.pdf.

**10.** QA28 Conduct of Examinations relates to the NFAAR-CPD in respect of detailed procedures for the conduct of examinations.

See: http://www.bath.ac.uk/quality/documents/QA28.pdf.

NFAAR-CPD v.006 Page 5 of 62

**11.** QA35 Assessment Procedures for Taught Programmes of Study relates to the NFAAR-CPD in respect of detailed assessment-related procedures.

See: http://www.bath.ac.uk/quality/documents/QA35.pdf.

**12.** QA45 Accreditation of Prior Learning relates to the NFAAR-CPD in respect of defining the accreditation of prior learning that may be appropriate if a student is to transfer from one programme to a designated alternative programme.

See: http://www.bath.ac.uk/quality/documents/QA45.pdf.

**13.** QA53 Examination and Assessment Offences relates to the NFAAR-CPD in respect of definitions and procedures concerning examination and assessment offences.

See: http://www.bath.ac.uk/quality/documents/QA53.pdf.

#### Scope: relevant students

- **14.** For the purpose of defining the students to which the NFAAR-CPD is applicable:
  - a. The following will be the relevant students:
    - All new entrants with effect from those joining the first stage of Phase 4 relevant programmes in 2011/12 (Regulation 15.1(d)(i).
    - All other continuing students on **Phase 4 relevant Continuing Professional Development framework programmes** in 2011/12 (Regulation 15.1(d)(*iii*).
  - **b.** The following will *not* be **relevant students**:
    - All students undertaking individual units under the auspices of the Continuing Professional Development framework without being registered for a programme, who are assessed under the Unit Regulations established for that purpose (Regulation 15.1(e)(iii).

#### Scope: relevant programmes

- **15.** For the purpose of defining the programmes to which the NFAAR-CPD is applicable:
  - a. The following will be the **Phase 4 relevant programmes**:
    - All Continuing Professional Development (CPD) framework programmes (Regulation 15.1(f)(*vii*)).
  - **b.** The following will *not* be **Phase 4 relevant programmes**:
    - All programmes included in other phases of NFAAR provisions: NFAAR-UG, NFAAR-PGT, NFAAR-FD, and NFAAR-HY.
    - Integrated master programmes leading to awards that are not classified (Regulation 15.1(g)(i)).
    - Bachelor ordinary programmes already in existence (Regulation 15.1(g)(ii)).
    - Research postgraduate programmes (Regulation 15.1(g)(iii)).
- **16.** All students registered on a **relevant programme** under the NFAAR-CPD will be assessed under the provisions of the NFAAR, unless appropriate exemptions are approved (see Appendix 10: Exemptions from provisions of the NFAAR-CPD).
- 17. The scope and provisions of the NFAAR-CPD may be extended by Senate in due course to include programmes which are not currently **relevant programmes**, and/or groups of students who are not currently **relevant students**.

NFAAR-CPD v.006 Page 6 of 62

#### Scope: exemptions

**18.** Some Phase 4 relevant programmes may be exempt from compliance with certain provisions of the NFAAR-CPD. See Exemptions (paras 92–96 below).

#### **Definitions**

19. For the purpose of making the NFAAR-CPD clear and unambiguous, terms are defined and used in a way that facilitates the succinct expression and combination of complex ideas. Such usage will be as set out in Appendix 2: Definitions. Lists of definitions relating to programmes of study, to components of assessment, and to assessment procedure, are provided in the introduction to the Appendix. Some of the definitions apply particularly to Continuing Professional Development (CPD) framework programmes as used in the NFAAR-CPD, some only to the programmes and awards described in other NFAAR documents. All are included Appendix 2: Definitions, in order to help make such differences clearer, where appropriate.

#### **Principles**

- **20.** These regulations are designed to build on traditional good practice in higher education assessment and seek to balance the relevant elements to achieve the aims and requirements established in discussions of principle.
- **21.** The key features thus derived, and modified in accordance with the outcomes of reviews of best practice, are:
  - **a.** Schemes of assessment will be described fully and clearly for students.
  - **b.** Programme decision-making documentation will be uniform so far as is possible.
  - **c.** Re-assessment for the retrieval of credit and/or capped pass marks as appropriate, and the re-taking of units, will be permitted within prescribed limits, in a context where unit failures may be neither condoned nor compensated for.
  - **d.** The creation of larger units will continue to be supported, to bring unit-level learning outcomes closer to the programme level.
  - **e.** Award decisions will be transparent and formulaic to reduce uncertainty on the part of staff and students, and to reduce the scope for misunderstanding and, ultimately, appeal.
  - f. The award of a lesser qualifications in appropriate circumstances will continue to reduce the starkness of the options relating to any student who has significant areas of failure in the more demanding parts of programmes that are not the result of individual mitigating circumstances, in a context where unit failures may be neither condoned nor compensated for.
  - **g.** A common approach to the relative weighting parts and stages will be set.
  - h. Common schemes of study and schemes of assessment will be supported, producing the best fit to needs across the University.
  - i. Coordinated provisions will apply overall and through common details for related groups of programmes (e.g., undergraduate and postgraduate programmes of study in the Continuing Professional Development framework contexts).
  - j. The best of programme-level decision-making and academic judgement such as it would routinely have been deployed within the University in the past will be encoded in the NFAAR-CPD.
- **22.** Requests for exemptions from specific provisions of the NFAAR-CPD, identified as being required to accommodate the special circumstances of a particular programme of study, will

NFAAR-CPD v.006 Page 7 of 62

be considered and may be approved by the University Learning, Teaching & Quality Committee. See Exemptions (paras 92–96 below).

Most of the contents of this section — concerning matters relating to programme-design — have been moved to QA3 Approval of New Programmes of Study. Such information is now provided there to support the design of programmes in the context of the NFAAR-CPD.

This includes sub-sections headed: Scheme of study and scheme of assessment and Defining parts and stages.

The regulatory sub-section on Assessment weightings in the calculation of averages (paras 31–33) has been retained here but has also been copied to QA3 as part of the material that will influence CPD programme design.

[Paragraphs 23–30 removed; see explanation in grey box above.]

#### Assessment weightings in the calculation of averages

- **31.** With one exception, and unless otherwise exempted from the provisions of the NFAAR-CPD, all units count towards the calculations for an award and all contribute to those calculations in proportion to their credit values within the total for the programme.
- 32. The exception is in the calculations for the award of a Bachelor degree with honours. The units forming Part 1 (Stage 1) do not count at all. The award calculation is based on Part 2 (Stage 2) units which contribute a total of 32% and Part 3 (Stage 3) units which contribute a total of 68%. Within Part 2, and within Part 3, each unit contributes to the sub-total according to the credit value of the unit within the sub-total. In these calculations, it is the identification of a unit with its stage that counts, rather than the level (Certificate, Intermediate, or Honours): however, the learning contract must ensure that appropriate quantities and levels of units are taken overall.
- **33.** These weightings are set out in tabular illustrations in Appendix 6: Weightings in the calculation of averages.

#### Assessment decision-making in general

Most of the contents of this section have been moved to QA35 Assessment Procedures for Taught Programmes of Study, where all of the same information is provided to support assessment decision-making processes, as distinct from the regulations available here.

This includes sub-sections headed: *Rule-based decision-making*; *Preparations*; *Decision-making processes and responsibilities: Boards of Examiners for Units*; *Decision-making processes and responsibilities: Boards of Examiners for Programmes*; *Decision-making processes and responsibilities: Boards of Studies*; *Scaling of marks*; and *Publication of pass lists*.

The following regulatory sub-sections have been retained here: Supplementary assessment; Award of credit, Award of a Certificate of Higher Education; Award of a Diploma of Higher Education; Award of a Foundation degree; Award of a Bachelor degree with honours; Award of a Postgraduate Certificate; Award of a Postgraduate Diploma; Award of a Master degree; Aegrotat awards; and Individual mitigating circumstances.

[Paragraphs 34–65 removed; see explanation in grey box above.]

#### Supplementary assessment

**66.** Detailed provisions concerning supplementary assessment are set out in Appendix 7: Supplementary assessment.

[Paragraph 67 removed; see explanation in grey box at start of this section.]

NFAAR-CPD v.006 Page 8 of 62

#### Award of credit

- 68. Credit is gained for successful completion of a unit. This is normally defined as the attainment of an aggregate mark of 40% or more for the summative assessment of the unit. However, individual schemes of assessment may define threshold levels of achievement for individual components of the summative assessment, known as qualifying marks.
- **69.** Credit is also gained on successful re-assessment for a unit. Students who re-take and pass a unit gain the credit for the unit.
- **70.** Where a candidate successfully retrieves failed units in supplementary assessment, credits will be awarded for the retrieved unit(s) and
  - **a.** If for undergraduate study, the original mark will be used in the calculation for the determination of eligibility for an award.
  - **b.** If for postgraduate study, a maximum mark of 40% will be awarded and used in the calculation for the determination of eligibility for an award.
- **71.** The student's transcript will show a category of outcome of the supplementary assessment (see Appendix 7: Supplementary assessment).
- **72.** Where a candidate successfully retrieves failure by the re-taking of a unit, the marks achieved at the second attempt will be recorded on the student's transcript and used in the calculation for the determination of eligibility for an award.
- **73.** Students are normally permitted only TWO attempts to complete the requirements for an individual unit, unless re-taking a unit, in which cases further attempts may be made in accordance with the relevant provisions.
- **74.** Students are not normally required to re-take units for which they have already been awarded credit under NFAAR-CPD provisions.

#### Award of a Certificate of Higher Education

**75.** A Certificate of Higher Education in Professional Development will be awarded to a student who has passed all learning contract units worth 60 credits, including *Integrated Professional Development 1*.

#### Award of a Diploma of Higher Education

**76.** A Diploma of Higher Education in Professional Development will be awarded to a student who has passed all learning contract units worth 120 credits, including *Integrated Professional Development 2*.

#### Award of a Foundation degree

77. A Foundation degree (in Arts or in Science, as appropriate) will be awarded to a student who has passed all learning contract units worth 120 credits, including *Integrated Professional Development 2*.

#### Award of a Bachelor degree with honours

- **78.** The degree of Bachelor (of Arts or of Science, as appropriate) with honours in Professional Development will be awarded to a student who has passed all learning contract units worth 180 credits, including *Integrated Professional Development 3*, a research methods unit, and a work-based research project or dissertation.
  - **a.** Class I (First class honours) will be awarded to a student who:
    - Has an overall programme average of at least 70.00%.

NFAAR-CPD v.006 Page 9 of 62

- Has an overall programme average of at least 68.00%, and gained at least 70% in each of a number of learning contract units at H-level worth at least 30 credits.
- b. Class II.i (Second class honours first division) will be awarded to a student who:
  - Has an overall programme average of at least 60.00.
  - Has an overall programme average of at least 58.00%, and gained at least 60% in each of a number of learning contract units at H-level worth at least 30 credits.
- c. Class II.ii (Second class honours second division) will be awarded to a student who:
  - Has an overall programme average of at least 50.00.
  - Has an overall programme average of at least 48.00%, and gained at least 50% in each of a number of learning contract units at H-level worth at least 30 credits.
- **d.** Class III (Third class honours) will be awarded to a student who:
  - Has an overall programme average of at least 40.00.

#### Award of a Postgraduate Certificate

- **79.** Where the learning contract falls within the generic structures of the CPD framework leading to awards *in Professional Development*:
  - **a.** A Postgraduate Certificate with distinction will be awarded to a student who has passed all learning contract units worth 30 credits, including *Integrated Professional Development 4*, and has an overall programme average of at least 70.00%.
  - **b.** A Postgraduate Certificate with merit will be awarded to a student who has passed all learning contract units worth 30 credits, including *Integrated Professional Development 4*, and has an overall programme average of at least 60.00%.
  - **c.** A Postgraduate Certificate will be awarded to a student who has passed all learning contract units worth 30 credits, including *Integrated Professional Development 4*.
- **80.** Where the learning contract is defined by a specific programme designed for delivery and assessment within the CPD framework leading to a specific named award:
  - **a.** A Postgraduate Certificate with distinction will be awarded to a student who has passed all learning contract units worth 30 credits, and has an overall programme average of at least 70.00%.
  - **b.** A Postgraduate Certificate with merit will be awarded to a student who has passed all learning contract units worth 30 credits, and has an overall programme average of at least 60.00%.
  - c. A Postgraduate Certificate will be awarded to a student who has passed all learning contract units worth 30 credits.

#### Award of a Postgraduate Diploma

- **81.** Where the learning contract falls within the generic structures of the CPD framework leading to awards *in Professional Development*:
  - a. A Postgraduate Diploma with distinction will be awarded to a student who has passed all learning contract units worth 60 credits, including *Integrated Professional Development 4*, and has an overall programme average of at least 70.00%.

NFAAR-CPD v.006 Page 10 of 62

- **b.** A Postgraduate Diploma with merit will be awarded to a student who has passed all learning contract units worth 60 credits, including *Integrated Professional Development 4*, and has an overall programme average of at least 60.00%.
- **c.** A Postgraduate Diploma will be awarded to a student who has passed all learning contract units worth 60 credits including *Integrated Professional Development 4*.
- **82.** Where the learning contract is defined by a specific programme designed for delivery and assessment within the CPD framework leading to a specific named award:
  - **a.** A Postgraduate Diploma with distinction will be awarded to a student who has passed all learning contract units worth 60 credits, and has an overall programme average (OPA) of at least 70.00%.
  - **b.** A Postgraduate Diploma with merit will be awarded to a student who has passed all learning contract units worth 60 credits, and has an overall programme average (OPA) of at least 60.00%.
  - **c.** A Postgraduate Diploma will be awarded to a student who has passed all learning contract units worth 60 credits.

#### Award of a Master degree

- **83.** Where the learning contract falls within the generic structures of the CPD framework leading to awards *in Professional Development*:
  - **a.** The degree of Master (of Arts or of Science, as appropriate) with distinction will be awarded to a student who has passed all learning contract units worth 90 credits, including *Integrated Professional Development 4*, a research methods unit, and a work-based research project or dissertation, and has all of (i) an overall programme average (OPA) of at least 70.00%, (ii) a dissertation/project average (DPA) of at least 70.00%, and (iii) a taught stage(s) average (TSA) of at least 60.00%.
  - **b.** The degree of Master (of Arts or of Science, as appropriate) with merit will be awarded to a student who has passed all learning contract units worth 90 credits, including *Integrated Professional Development 4*, a research methods unit, and a work-based research project or dissertation, and has all of (i) an overall programme average (OPA) of at least 60.00%, (ii) a dissertation/project average (DPA) of at least 60.00%, and (iii) a taught stage(s) average (TSA) of at least 50.00%.
  - **c.** The degree of Master (of Arts or of Science, as appropriate) will be awarded to a student who has passed all learning contract units worth 90 credits, including *Integrated Professional Development 4*, a research methods unit, and a work-based research project or dissertation, and has both a dissertation/project average of at least 40.00% and an overall programme average of at least 40.00%.
- **84.** Where the learning contract is defined by a specific programme designed for delivery and assessment within the CPD framework leading to a specific named award:
  - **a.** The degree of Master (of Arts or of Science, as appropriate) with distinction will be awarded to a student who has passed all learning contract units worth 90 credits, and has all of (i) an overall programme average (OPA) of at least 70.00%, (ii) a dissertation/project average (DPA) of at least 70.00%, and (iii) a taught stage(s) average (TSA) of at least 60.00%.
  - b. The degree of Master (of Arts or of Science, as appropriate) with merit will be awarded to a student who has passed all learning contract units worth 90 credits, and has all of (i) an overall programme average (OPA) of at least 60.00%, (ii) a dissertation/project average (DPA) of at least 60.00%, and (iii) a taught stage(s) average (TSA) of at least 50.00%.
  - **c.** The degree of Master (of Arts or of Science, as appropriate) will be awarded to a student who has passed all learning contract units worth 90 credits, and has both a

NFAAR-CPD v.006 Page 11 of 62

dissertation/project average of at least 40.00% and an overall programme average of at least 40.00%.

#### **Aegrotat awards**

**85.** An Aegrotat Degree, Diploma or Certificate may be awarded to a candidate covered by the NFAAR-CPD who is prevented by illness or other sufficient cause from completing a piece of assessment which contributes to the final classification. Consideration by the Board of Examiners for this type of award should be requested by the candidate and only recommended when it is the collective view of the Board of Examiners that the candidate possesses the same level of knowledge, skills and understanding as would have been demonstrated if the candidate had completed the final assessment. It is therefore implicit that the candidate will normally have completed a substantial proportion of the final year of study. (See University Ordinances, 14.8 and 14.9.)

[Paragraphs 86–90 removed; see explanation in grey box at start of this section.]

#### Individual mitigating circumstances

**91.** All students and staff requiring information about individual mitigating circumstances and assessment should consult the IMCA document and other associated information.

See: Individual Mitigating Circumstances & Assessment: Principles & Procedures within & outside the New Framework for Assessment: Assessment Regulations, <a href="http://www.bath.ac.uk/registry/imc/">http://www.bath.ac.uk/registry/imc/</a>.

#### **Exemptions**

- **92.** The University Learning, Teaching & Quality Committee is authorized to consider and grant requests for exemptions from specific provisions of the NFAAR-CPD.
- **93.** To preserve the clarity of the NFAAR-CPD, the main body of the regulations will not be modified to show the effects of exemptions.
- 94. Exemptions granted by the University Learning, Teaching & Quality Committee will be listed in Appendix 10: Exemptions from provisions of the NFAAR-CPD. Since they are proposed by departments, faculties, or schools of the University, and will be sought by students from those perspectives, the exemptions will be listed and cross-referenced by the areas concerned. Those departments/schools concerned will be required to describe their exemptions and explain the effects in their programme and assessment documentation.
- **95.** Exemptions will be reviewed from time to time, to establish whether they continue to be necessary, or whether it would be appropriate to modify the main body of the NFAAR-CPD.
- **96.** Users of NFAAR documents are advised always to check the list of exemptions in Appendix 10: Exemptions from provisions of the NFAAR-CPD in its online version available via the University Academic Registry web-site at: <a href="http://www.bath.ac.uk/registry/nfa/">http://www.bath.ac.uk/registry/nfa/</a>.

NFAAR-CPD v.006 Page 12 of 62

#### Specific assessment criteria: Foundation degree programmes

97. This section concerns all CPD programmes leading to Certificate of Higher Education, Diploma of Higher Education/Foundation degree, Bachelor degree with honours, Postgraduate Certificate, Postgraduate Diploma, or Master degree. Common criteria are specified for all assessment points during the progress to, and completion of the requirements for, each type of award.

#### Undergraduate study

- **98.** Detailed assessment criteria for the main and supplementary assessments for programmes leading to Certificate of Higher Education awards are set out in Appendix 11: UG CPD study to Cert HE award.
- **99.** Detailed assessment criteria for the main and supplementary assessments for programmes leading to Diploma of Higher Education/Foundation degree awards are set out in Appendix 12: UG CPD study to Dipl HE or FD award.
- 100. Detailed assessment criteria for the main and supplementary assessments for programmes leading to Bachelor with honours awards are set out in Appendix 13: UG CPD study to Bachelor degree award and Appendix 14: Classification for Bachelor with honours award from UG CPD study.

#### Postgraduate study

- **101.** Detailed assessment criteria for the main and supplementary assessments for programmes leading to Postgraduate Certificate awards are set out in Appendix 15: PG CPD study to PG Cert award.
- 102. Detailed assessment criteria for the main and supplementary assessments for programmes leading to Postgraduate Diploma awards are set out in Appendix 16: PG CPD study to PG Dipl award.
- **103.** Detailed assessment criteria for the main and supplementary assessments for programmes leading to Master awards are set out in Appendix 17: PG CPD study to Master award.

NFAAR-CPD v.006 Page 13 of 62

NFAAR-CPD v.006 Page 14 of 62

## Appendix 1: Integration of the NFAAR with University Regulation 15

- 1. As stated in paras 3–5 of the NFAAR-CPD main text, under the heading Scope: timing and integration with University Regulation 15, this document is part of the NFAAR supplement to the University Regulations, and will normally be produced separately from them.
- **2.** Regulation 15 sets the general regulatory context for the Assessment of Undergraduate and Taught Postgraduate programmes (<a href="http://www.bath.ac.uk/regulations/">http://www.bath.ac.uk/regulations/</a>).
- **3.** Within Regulation 15:
  - 15.2 does not apply to students under NFAAR-CPD since it sets out definitions which are all described fully in Appendix 2: Definitions of NFAAR-CPD; and
  - 15.7 does not apply to students under NFAAR-CPD since it sets out maximum periods for completion of study and assessment for first-degree students.
- 4. Within Regulation 15:
  - 15.1 sets out matters of scope which include which students and programmes fall under NFAAR-CPD:
  - 15.3 sets out matters of Assessment Procedure which are described more fully in QA3 Approval of New Programmes of Study (for programme design considerations), QA35 Assessment Procedures for Taught Programmes of Study, and QA12 External Examining (Taught Provision);
  - 15.4(a) makes a cross-reference in more general terms to the University's Quality Assurance Code of Practice. (http://www.bath.ac.uk/quality/cop/);
  - 15.4 (b) sets out how schemes of assessment outline the regulations for progression and conferment associated with particular programmes (such schemes of assessment are published by the Departments and are available to students and would include details of any exemption listed in Appendix 10: Exemptions from provisions of the NFAAR-CPD);
  - 15.4(c) sets out how detailed procedural matters are specified in University Rules; and
  - 15.5 and 15.6 set out provisions for the use of calculators and dictionaries in University examinations.

NFAAR-CPD v.006 Page 15 of 62

NFAAR-CPD v.006 Page 16 of 62

#### **Appendix 2: Definitions**

#### Introduction

For the purpose of making the NFAAR clear and unambiguous, terms are defined and used in a way that facilitates the succinct expression and combination of complex ideas.

Some of the definitions only apply to particular areas of the NFAAR:

NFAAR-FD, which covers Foundation degree programmes and awards;

NFAAR-HY, which covers Honours Year programmes (that lead on from Foundation degree programmes to Bachelor degree awards):

NFAAR-UG, which covers all first degree programmes leading to Bachelor awards with honours or to Master of Architecture with honours, and all integrated first degree programmes leading to classified Master awards with honours;

NFAAR-PGT, which covers postgraduate taught programmes; and

NFAAR-CPD, which covers all types of awards undertaken exclusively within the University's Continuing Professional Development

All are included here, in order to help make such differences clearer, where appropriate.

#### Organisation of definitions

Three summaries of the ways in which particular definitions fit together in the assessment context are provided below, followed by the alphabetic list of the definitions themselves.

#### Definitions relating to programmes of study

Starting with general matters, and moving gradually into more detailed matters, the definitions relating to programmes of study in the assessment context are:

Broad types of programmes

Coexistent and stand-alone programmes

Programme of study

Designated alternative programme (DAP)

Scheme of study

Scheme of assessment

Programme required unit (PRU)

Learning contract units (LCU)

Part

Stage

Learning contract units at H-level (LCH)

Taught-stage(s) credits (TSC)

Dissertation/project credits (DPC)

Stage required unit (SRU)

Block

Level

Credit

Unit

**Placement** 

Study abroad

Designated essential unit (DEU)

Work-based Research Project (WRP)

#### Definitions relating to components of assessment

Starting with general matters, and moving gradually into more detailed matters, the definitions relating to the components of assessment are:

Board of Studies (BoS)

Board of Examiners for Programmes (BEP)

Overall programme average (OPA)

Programme progression requirement (PPR)

Overall stage average (OSA)

#### **Definitions relating to assessment** procedure

Assessment procedure can best be described in two timelines: a lower-level timeline that relates to events that may occur several times within a programme of study because they happen within every part or stage, and a higher-level timeline that relates to the programme of study overall.

Routine lower-level assessment events (not all will necessarily occur):

Formative assessment

Summative assessment (either Progress assessment or Final assessment)

Deferred assessment

#### Alphabetic list of definitions

#### Accreditation of prior learning (APL)

The NFAAR determines the circumstances in which a student may not continue on her/his programme because of weaker performance: this is normally at the end of a stage, but some additional performance conditions in PGT programmes could come into play before the end of a stage. At such a point, there may be a designated alternative programme that might be appropriate as an alternative way forward for the student. If the designated alternative programme is commonly used in this way to receive students from a specified other programme, it may have admission requirements for access to stages other than the initial stage written into its scheme of study. All of the judgements about the appropriateness of admitting the student to that designated alternative programme must be made as admission decisions, and unless the student is to start that programme from the beginning (in which case the normal admission requirements may be the best measure for determining the outcome) or the receiving programme has other admission requirements already specified, it is likely that the judgement will be based on the accreditation of prior learning in the programme the student is leaving.

Similarly, in cases of very high performance, a student might be eligible to transfer to a more demanding programme (e.g., from bachelor to integrated master). Here too, the accreditation of prior learning in the student's current programme will be the area of judgement as to whether the student should transfer.

For both types of move, the receiving programme should define the requirements for admission with, or without, advanced standing in the new programme. The principles and procedures for APL are set out in QA45.

#### Alternative, or exit, award

For some programmes, there may be an alternative, or exit, award available to those who do not meet the requirements for the specified normal award. In the NFAAR-UG context, this might take the form of a Certificate of Higher Education or Diploma of Higher Education, or it might be a more generally titled programme that does not carry the professional accreditation approved for the specific programme. In the NFAAR-PGT context, a student aiming for a Master award might be able to be awarded a Postgraduate Diploma or a Postgraduate Certificate. In the NFAAR-FD context, a Certificate of Higher Education may be available if a Foundation degree cannot be attained, and in the NFAAR-CPD context the award aim can be agreed as part of the student's learning contract.

In some circumstances, it might be possible for students transferring to less demanding programmes to regain the original programme if subsequent performance is at an appropriate standard.

#### Assessment and credit weightings

See Overall programme average and Overall stage average.

#### Award calculations by stages

In the NFAAR-UG context, units are normally weighted in award calculations by their location in parts and stages, rather than by their level; this applies also to Bachelor with honours awards in the NFAAR-CPD context. Similarly, in the single-part regulations of the NFAAR-PGT context, units normally carry their credit-weighted value towards an award calculation, regardless of their individual level. Elsewhere, in the NFAAR-FD, NFAAR-HY, and NFAAR-CPD other than for Bachelor with honours awards, units normally carry their credit-weighted value towards an award calculation.

See also Level.

#### **Block**

This is the term used in SAMIS, the University's Student & Applicant Management Information System, to denote a period, within an academic year (often of an academic year), which carries elements of teaching, learning, and assessment.

#### Board of Examiners for Programmes (BEP)

Sometimes colloquially referred to as a Programme Board, this is expressly not associated only with individual programmes. The preservation of academic standards may be better achieved by judging results from a range of related programmes, rather than by narrowly focusing on a single programme.

Unit results are forwarded to the appropriate Board(s) of Examiners for Programmes (BEPs). BEPs are responsible for determining award classifications and for considering the progression of students registered on programmes of study under their academic authority, taking account of individual mitigating circumstances as they deem appropriate. External examiners are involved in reaching all decisions relating to the conferment of awards and the determination of final degree classifications.

BEPs assess the performance of each student and make recommendations in accordance with the NFAAR to the appropriate Board(s) of Studies concerning the progress of and/or award conferment for each student.

#### Board of Examiners for Units (BEU)

Sometimes colloquially referred to as a Unit Board, these are expressly not associated only with individual units. The preservation of academic standards may be better achieved by judging results from a range of related units, rather than by narrowly focusing on a single unit.

Board of Examiners for Units (BEUs) are responsible for determining the marks achieved by students taking units under their academic authority. External examiners are involved in agreeing the marks for any final assessment.

#### Board of Studies (BoS)

It is the Board of Studies which is responsible for all of the detailed implementation of academic study and assessment, and for the determination of awards to successful students for the departments and programmes within its area.

Boards of Studies consider the recommendations of the Board of Examiners for Programmes and make decisions on progression and the conferment of awards by the authority of Senate.

NFAAR-CPD v.006 Page 18 of 62

Boards of Studies are responsible for the publication of their decisions.

#### Broad types of programmes

The University recognizes that three broad types of programmes lead to the awards covered by the NFAAR. Each is the product of long tradition in UK higher education, and as such their assessment patterns are familiar and reliable indicators of the standards expected of graduates.

Many of the University's programmes are closely or completely aligned with the requirements for practice in a professional context. The assessment requirements for programmes in this category are likely to stipulate that almost all, or all, assessments must be passed to qualify for the award of the appropriate degree. Such programmes can be found particularly in the NFAAR-UG and NFAAR-PGT contexts when professional requirements are important, and also in the more credit-accumulating contexts of the NFAAR-FD and NFAAR-CPD contexts

Many other programmes are associated with those academic disciplines in which specific areas of study are individually less necessary to qualify for the award of the appropriate degree. Assessment requirements for these programmes are therefore concerned to establish that, across a range of study areas, the overall profile of achievement justifies the award of the degree. Examples of such programmes can be found particularly in the NFAAR-UG context, and also in some of the NFAAR-HY programmes.

In between, there are programmes that may be associated with an area of professional practice or may be more general in nature. They have in common that some specific, key learning outcomes must be met in order to qualify for the award of the appropriate degree. Examples of such programmes can be found particularly in the NFAAR-UG and NFAAR-PGT contexts, and also in some of the NFAAR-HY programmes.

The main difference related to assessment arising from these broad types of programmes is found in the requirements for many or some units to be passed. These requirements are transparent and evident in individual schemes of study and assessment through the identification of designated essential units.

#### C1

This abbreviation is used in the detailed assessment criteria appendices to denote units for which the results are condonable first attempts against a pass mark of 40%, therefore with a mark no lower than 35% and no higher than 39%. C1 cannot be applied to designated essential units since they must be passed. In the NFAAR-PGT context, dissertation/project-type units must also be passed and therefore cannot be C1.

Within the more credit-accumulating contexts of the NFAAR-FD and NFAAR-CPD contexts, all units must ultimately be passed; C1 cannot be applied to units in programmes in these areas.

See also C2, C2(3), P1, P2, P2(3), P3, P4, UX, Designated essential units, and Dissertation/project credits.

#### C2

This abbreviation is used in the detailed assessment criteria appendices to denote units for which the results are condonable at the second attempt against a pass mark and with marks gained as described in Appendix 7: Supplementary assessment of the relevant NFA document (NFAAR-UG, NFAAR-PGT, NFAAR-FD, NFAAR-HY, NFAAR-CPD). C2 cannot

be applied to designated essential units since they must be passed. In the NFAAR-PGT context, dissertation/project-type units must also be passed and therefore cannot be C2.

Within the more credit-accumulating contexts of the NFAAR-FD and NFAAR-CPD contexts, all units must ultimately be passed; C2 cannot be applied to units in programmes in these areas.

See also C1, C2(3), P1, P2, P2(3), P3, P4, UX, Designated essential units, and Dissertation/project credits.

#### C2(3)

This abbreviation is used in the detailed assessment criteria appendices of the NFAAR-UG to denote units for which the results are condonable at the second attempt or at the third (second supplementary) attempt — in the relatively rare circumstance where a third attempt is permitted — against a pass mark and with marks gained as described in Appendix 7: Supplementary assessment of the NFAAR-UG. C2(3) cannot be applied to designated essential units since they must be passed.

See also C1, C2, P1, P2, P2(3), P3, P4, UX, Designated essential units, and Dissertation/project credits.

#### Classification

The honours degrees currently covered by the NFAAR-UG, and by the NFAAR-HY and relevant sections of the NFAAR-CPD provisions, can all lead to classified awards, meaning that an indicator of overall performance is applied. Strict minimum thresholds for each honours class help to ensure the maintenance of standards. Full details of the calculation methods are provided in the NFAAR-UG, the NFAAR-HY, and the relevant sections of the NFAAR-CPD.

In the NFAAR-PGT context, and in relevant sections of the NFAAR-CPD provisions, in addition to passing and qualifying for an award, the awards may be made with merit or with distinction. Here, too, strict minimum thresholds for the merit and distinction classes help to ensure the maintenance of standards. Full details of the calculations methods are provided in the NFAAR-PGT, and the relevant sections of the NFAAR-CPD.

## Coexistent programmes (see also Standalone programmes)

This concept applies only in the NFAAR-UG, where the Master-level awards are from integrated first-degree Master programmes.

In a number of departments of the University, integrated Master with honours programmes leading to classified awards are offered alongside related Bachelor with honours programmes. In some cases, teaching may be shared in the early years of study, but in all cases the Master with honours programmes carry the student beyond the learning outcomes of Bachelor with honours programmes through a longer overall period of study to higher learning outcomes at Master level.

Where a department offers both sorts of programmes in a way that treats them as related, students might be permitted to move from the Bachelor to the Master programme if performance is very good, or might be required to move from the Master to the Bachelor programme if performance indicates that this would be more fitting. To distinguish these arrangements from other sorts of linked or related programmes, these are described as coexistent programmes.

NFAAR-CPD v.006 Page 19 of 62

In some departments, an integrated Master programme might be offered without there being a parallel Bachelor programme running alongside, or in a way that does not treat the two programmes as closely related. Where necessary to distinguish assessment options and outcomes, these programmes are described as stand-alone programmes.

#### Condonement and/or compensation

In balancing the use of credit gained for achieving unit learning outcomes and the overall consideration of programme learning outcomes, compensation is the term used to describe a situation where good performance in one area may allow poor performance in another to be disregarded. Thus failing a unit might be condoned if there is compensating higher level performance elsewhere in the student's profile and the failure is not in a designated essential unit. Individual mitigating circumstances accepted by the Board of Examiners for Programmes may also allow poor performance to be condoned and credit awarded.

Compensation and the condonement of marginal failure in individual units are not allowed in the more credit-accumulating contexts of the NFAAR-FD and the NFAAR-CPD.

#### Credit

In relation to a programme of study, credit is mainly a measure of relative workload. For most first degree programmes covered by NFAAR-UG, a full academic year's work will be represented as 60 ECTS (European Credit Transfer System) credits equivalent to 120 CATS (Credit Accumulation and Transfer System) credits. Individual units within the total required for that period will be specified as being 3, 6, 12, or a multiple of 6 credits, representing an approximate division of the work required to complete them. For most Master programmes covered by NFAAR-PGT, a full twelve months' work will be represented as 90 ECTS credits - equivalent to 180 CATS credits. While some Foundation degree and Honours Year programmes are undertaken full-time, many have part-time equivalents where the same total credit is spread over a longer period. In the NFAAR-CPD context, an individual learning contract may specify the overall units and credits required, and period available, for a particular level of award to be gained.

In relation to assessment, credit is generally a representation of the granting of recognition for the successful completion of a unit. This is most obviously true of degree programmes based on credit accumulation. Other types of programmes are more concerned with credit as a measure of relative workload, will grant recognition for work done as part of a wider assessment of achievement, and may require that the process be completed within a specified period.

#### Deferred assessment

This term is used to denote assessment which is the candidate's first attempt at a later date than is normal for that assessment as the result of consideration of special circumstances which either prevented her/his assessment at the normal time, or seriously compromised that attempt. Marks gained in deferred assessment will be used in overall stage average, overall programme average, taught-stage average, and any award calculations.

See also Supplementary assessment.

#### Designated alternative programme (DAP)

This term is used to denote programmes which are available as alternatives to pursuing the student's present programme. In cases of very high performance, a student might be eligible to transfer to a more demanding programme (e.g., from bachelor to integrated master); in cases of weaker performance in the NFAAR-UG context, an ordinary degree programme, or a less-demanding programme not carrying professional accreditation, might be available. In the NFAAR-PGT context, a student aiming for a Master award might be able to transfer to a Postgraduate Diploma programme. In the NFAAR-FD context, a Certificate of Higher Education may be available if a Foundation degree cannot be attained, and in the NFAAR-CPD context the award aim can be agreed as part of the student's learning contract.

#### Designated essential unit (DEU)

Units may be required to be taken within the design of a programme of study, but designated essential units (DEUs) are those which must be passed in order to qualify to proceed with a programme or to receive its normal award at the end. Marginal failure in such units cannot be condoned.

#### Director of Studies

In some contexts (in the NFAAR-FD, NFAAR-HY, and NFAAR-CPD), a Programme Leader carries out the same functions as a Director of Studies.

See also Programme Leader.

#### Dissertation/project average (DPA)

Many Master programmes covered by the NFAAR-PGT have a taught phase followed by a dissertation/ project phase. The calculation of eligibility for awards with merit or with distinction depends on performance in each of these phases meeting the relevant threshold. The DPA is the summary term for the contribution from the latter type where it exists as a later event chronologically, and is also used to summarize the assessment contribution from that type of activity when the relevant units run in parallel with taught units contemporaneously. It is calculated according to the weightings of the constituent units (or any other scheme specifically approved for the purpose), as gained at the first attempt, or, where appropriate, according to the rules concerning the maximum mark awardable following supplementary assessment (unless taken as deferred assessment).

See also Supplementary assessment and Taught stage(s) average (TSA).

#### Dissertation/project credits (DPC)

Many Master programmes covered by the NFAAR-PGT have a taught phase followed by a dissertation/project phase. The unit(s) falling into the latter phase are summarized as dissertation/project credits. In some Master programmes, the two types of units (taught, and dissertation/project) run in parallel, contemporaneously. In this case, the DPC credits come from units that are defined as being of the dissertation/project type.

See also Taught-stage(s) credits.

#### Exit award

See Alternative, or exit, award.

#### Factors in award decision-making

In line with the distinctions drawn in describing broad types of programmes, decision-making about awards may not focus on the accumulation of credit alone. In addition to considering credits awarded, other

NFAAR-CPD v.006 Page 20 of 62

elements indicating levels of performance may also be used in specified circumstances, including the passing of designated essential units, overall programme averages, and the profile of a student's achievements.

In the NFAAR-UG context, the criteria for award decision-making, apart from the consideration of individual mitigating circumstances, are balanced between features such as overall programme average, the performance in Part 3 units, and the requirement to pass designated essential units. The first two of these features also apply to first degree awards in the NFAAR-CPD context, where all units must be passed and so there is no need for designated essential units to be identified.

In the NFAAR-PGT context, there are different requirements which reflect the more concentrated Master-level study in a shorter full-time period (or its part-time equivalents). For Master awards, for example, the calculation of eligibility for awards with merit or with distinction depends on performance meeting the relevant thresholds for the overall programme, and for the taught phase and the dissertation/project phase.

In the NFAAR-FD and the NFAAR-CPD contexts, all units must be passed, so there is no need for designated essential units to be identified.

In the NFAAR-HY context, features such as the overall programme average and performance in the Work-based Research Project are important in determining awards.

#### Final assessment

Final assessments are those assessments the results of which count in determining the award or the level of the final award (Degree, Diploma or Certificate of the University).

#### Formative assessment

Formative assessments are those assessments not defined in approved schemes of studies but contributing to the student's learning experience. Such formative assessment is entirely at the discretion of the appropriate academic department/school.

#### Head of Department

In some contexts (in the NFAAR-FD, NFAAR-HY, and NFAAR-CPD), the Head of the Learning Partnerships Office carries out the same functions as a Head of Department.

See also Head of Learning Partnerships Office.

#### Head of Learning Partnerships Office

In some contexts (in the NFAAR-FD, NFAAR-HY, and NFAAR-CPD), the Head of the Learning Partnerships Office carries out the same functions as a Head of Department.

See also Head of Department.

#### Learning contract units at H-level (LCH)

In the NFAAR-CPD, these are Honours (H-level) units which a student has agreed to take as part of the agreed learning contract.

#### Learning contract units awaiting reassessment (LCR)

In the NFAAR-CPD, these are the units which a student has agreed to take as part of the agreed learning contract which have been failed at the main assessment and are now awaiting supplementary assessment.

#### Learning contract units (LCU)

In the NFAAR-CPD, these are the units which a student has agreed to take as part of the agreed learning contract.

#### Level

Programmes of study of the types described in this section consist of units with levels in the range Certificate (C), Intermediate (I), Honours (H), and Master (M). The University specifies minimum quantities of credit at appropriate levels for programmes leading to specified awards (see QA3, at http://www.bath.ac.uk/quality/documents/QA3.pdf)

In the NFAAR-UG context, it is common, but not compulsory, that units of a given level should fall in a particular stage of a programme. Thus, in a three-year full time programme leading to the degree of Bachelor with honours, there might be some I-level and some H-level units in each of years 2 and 3; this might occur, for example, because the relevant units are offered in alternate years and students will be quite capable of taking them in either their Part 2 or Part 3 periods of study.

All units taken in Stage 3 of the three-year full time programme leading to the degree of Bachelor with honours will normally be equally weighted in the degree calculation, no matter what level of unit is involved. In other words, since such provisions are made in the design stages of programmes, and since the pattern of provision is known to both the programme designers and the students on the programme, there is no adjustment for the level of unit taken in a particular stage of a programme.

In the NFAAR-PGT context, almost all units are required to be at Master-level, but the small proportion of units that may not be at Master-level will normally be weighted equally towards the calculation for an award. Here, too, this is known in the design stages of programmes, as well as being known to students on the programmes.

C- and I-level units are designed into the appropriate stages of full- and/or- part-time programmes in the NFAAR-FD context, as are H-level units in the NFAAR-HY context.

In NFAAR-CPD programmes, the levels and creditquantities of units required are specified either in programme details or in individual learning contracts.

#### Marks

Marks are a tool in using academic judgement to evaluate the performance of a student in a particular area of work. The clarity and transparency of the aggregation of unit results towards the making of an award within the NFAAR encourages the proper concentration of attention on students' performance in the units they have chosen to take. Marks may be used to help to calibrate judgement about the point at which a student has met the normal minimum learning outcomes for a unit, or, below that, a minimum point for the condonement of a marginal fail in a unit that is not a designated essential unit, or the NFAAR-PGT context, a dissertation/project unit.

Using marks in an aggregated way, through averages for stages or a whole programme, allows overall performance to be judged in a suitable variety of ways, tempered by the invariable need to pass designated essential units.

See also Deferred assessment, Supplementary assessment, and Qualifying marks.

NFAAR-CPD v.006 Page 21 of 62

New Framework for Assessment: Assessment Regulations (NFAAR, NFAAR-UG, NFAAR-PGT, NFAAR-FD, NFAAR-HY, NFAAR-CPD)

The New Framework for Assessment is about providing assessment regulations in clear and common framework contexts. The first phase of this work came into force from August 2008 for first degree programmes, as described in the NFAAR-UG. The second and third phases of the introduction of such framework regulations apply from August 2010 and August 2011 for groups of PGT programmes as described in the NFAAR-PGT. The fourth and fifth phases applies to Foundation degree programmes, Honours Year programmes, and Continuing Professional Development framework programmes from August 2011 and August 2012 as described in the NFAAR-FD, NFAAR-HY, and NFAAR-CPD respectively. These titles and abbreviations will be used until the end of transitional arrangements during which some students of the University will have their assessment conducted and awards made under other regulations. At such time, a suitable new title will be chosen.

#### No bad-fail

This concept is used formally in the NFAAR-PGT context to summarize the idea that, at the programme level, *no* unit may have a result lower than 35% in the overall award calculation.

The term is also used informally within the University in relation to the qualifying marks within unit assessments.

See also Qualifying marks.

#### Overall programme average (OPA)

In the NFAAR-UG, this is the term used to denote the mean average mark across all summative assessments in all stages of Part 2 and Part 3 of a programme, calculated according to the weightings of the constituent units and parts (or any other scheme specifically approved for the purpose), as gained at the first attempt (*i.e.*, not marks gained in supplementary assessment, unless taken as deferred assessment).

In the NFAAR-PGT, this is the term used to denote the mean average mark across all summative assessments in all stages of Part 4 of a programme, calculated according to the weightings of the constituent units (or any other scheme specifically approved for the purpose), as gained at the first attempt, or, where appropriate, according to the rules concerning the maximum mark awardable following supplementary assessment (unless taken as deferred assessment).

In the NFAAR-HY, this is the term used to denote the mean average mark across all summative assessments in all stages of Part 3 of a programme, calculated according to the weightings of the constituent units (or any other scheme specifically approved for the purpose), as gained at the first attempt, or, where appropriate, according to the rules concerning the maximum mark awardable following supplementary assessment (unless taken as deferred assessment).

In the NFAAR-CPD programmes leading to Bachelor with honours degrees, this is the term used to denote the mean average mark across all summative assessments in all stages of Part 2 and Part 3 of a programme, calculated according to the weightings of the constituent units and parts (or any other scheme specifically approved for the purpose), as gained at the first attempt (i.e., not marks gained in

supplementary assessment, unless taken as deferred assessment).

In the NFAAR-CPD postgraduate programmes (leading to Postgraduate Certificate/Diploma or to Master awards), this is the term used to denote the mean average mark across all summative assessments in all stages of Part 2 (where appropriate) and Part 3 of a programme, calculated according to the weightings of the constituent units (or any other scheme specifically approved for the purpose), as gained at the first attempt, or, where appropriate, according to the rules concerning the maximum mark awardable following supplementary assessment (unless taken as deferred assessment).

In the NFAAR-FD, this is the term used to denote the mean average mark across all summative assessments in all stages of Part 2 and Part 3 of a programme, calculated according to the weightings of the constituent units (or any other scheme specifically approved for the purpose), as gained at the first attempt, or, where appropriate, according to the rules concerning the maximum mark awardable for retaken units or following supplementary assessment (unless taken as deferred assessment). It is this value that is used in determining eligibility to undertake a related Honours Year programme, where appropriate.

See also Supplementary assessment.

#### Overall stage average (OSA)

In the NFAAR-UG, this is the term used to denote the mean average mark across all summative assessments in a stage of a programme, in whatever part that stage falls, calculated according to the weightings of the constituent units (or any other scheme specifically approved for the purpose), as gained at the first attempt (*i.e.*, not marks gained in supplementary assessment, unless taken as deferred assessment).

In the NFAAR-PGT, this is the term used to denote the mean average mark across all summative assessments in a stage of a programme, calculated according to the weightings of the constituent units (or any other scheme specifically approved for the purpose), as gained at the first attempt, or, where appropriate, according to the rules concerning the maximum mark awardable following supplementary assessment (unless taken as deferred assessment).

In the NFAAR-FD, this is the term used to denote the mean average mark across all summative assessments in a stage of a programme, calculated according to the weightings of the constituent units (or any other scheme specifically approved for the purpose), as gained at the first attempt, or, where appropriate, according to the rules concerning the maximum mark awardable following supplementary assessment (unless taken as deferred assessment).

See also Supplementary assessment.

Ρ1

This abbreviation is used in the detailed assessment criteria appendices to denote units passed at the first attempt against a pass mark of 40%, therefore with a mark greater than or equal to 40%.

See also C1, C2, C2(3), P2, P2(3), P3, P4, and UX.

P2

This abbreviation is used in the detailed assessment criteria appendices to denote units passed at the second attempt against a pass mark described in Appendix 7: Supplementary assessment of the relevant NFA document (NFAAR-UG, NFAAR-PGT, NFAAR-FD, NFAAR-HY, NFAAR-CPD).

NFAAR-CPD v.006 Page 22 of 62

See also C1, C2, C2(3), P1, P2(3), P3, P4, and UX.

#### P2(3)

This abbreviation is used in the detailed assessment criteria appendices of the NFAAR-UG to denote units passed at the second attempt or at the third (second supplementary) attempt — in the relatively rare circumstances where a third attempt is permitted — against a pass mark described in Appendix 7: Supplementary assessment of the NFAAR-UG).

See also C1, C2, C2(3), P1, P2, P3, P4, and UX.

#### P3

This abbreviation is used in the detailed assessment criteria appendices of the NFAAR-FD to denote retaken units passed at the first attempt against a pass mark described in Appendix 7: Supplementary assessment of the NFAAR-FD.

See also C1, C2, C2(3), P1, P2, P2(3), P4, and UX.

#### P4

This abbreviation is used in the detailed assessment criteria appendices to denote re-taken units passed at the second attempt against a pass mark described in Appendix 7: Supplementary assessment of the NFAAR-FD.

See also C1, C2, C2(3), P1, P2, P2(3), P3, and UX.

#### Part

This term is used to distinguish periods within programmes of study which are treated in different ways for assessment purposes.

In the NFAAR-UG context, and considering the simple case of a three-year programme leading to a BSc award, the first year is labelled as Part 1, and its assessment will normally be used only to determine the student's fitness to proceed to the rest of the programme. Re-assessment of failed units is common here, within prescribed limits. Some limited condonement of marginally-failed units is allowed where compensated by good performance overall.

The middle year of this programme is labelled as Part 2: its assessment will contribute to the calculation for an award in due course, but will not see the completion of all that is required for the award. Reassessment of failed units is common here within prescribed limits, but marks gained on re-assessment will not be carried into award calculations. (Only when an entire stage of a programme has to be repeated, including all teaching and assessment, does the student start with a clean slate, and the prospect of achieving a new set of marks that will be carried into award calculations.) Some limited condonement of marginally-failed units is allowed where compensated by good performance overall.

The final year of this programme is labelled as Part 3: its assessment will contribute to, and will be the last to be taken by the student before, the calculation for an award. Re-assessment is less common here, and is permitted only in specified circumstances. However, some condonement of failed units is allowed where overall learning outcomes will have been met.

A four-year programme leading to an integrated master's degree award has two middle years which fall into the Part 2 category.

In the NFAAR-PGT context, the entire programme periods are labelled as Part 4. Throughout these programmes, assessment is used to contribute to decisions about eligibility for the qualification aim, progression, and upon completion of the programme for the award. Part 4 is distinguished from Part 2 and

Part 3 assessments because different rules govern, for example, supplementary assessment, and the aggregation of marks towards an award calculation. Some limited condonement of marginally failed units is allowed where the overall programme learning outcomes will have been met.

In other groups of programmes, the balance of such provisions is applied to reach similar ends by different means.

In the NFAAR-CPD context, the continuing professional development aims of the programmes are met by providing opportunities to manage study contributing to an award that may extend over a longer period. Individual learning contracts define the study to be undertaken. Here, there is no condonement of even marginally-failed units, but there are no limits on the re-taking of individual failed units. This helps to ensure that learning is securely built over longer periods. Otherwise, Part 1 study covers that which is used only to determine the student's fitness to proceed to the rest of the programme; Part 2 study covers that which will contribute to the calculation for an award in due course, but will not see the completion of all that is required for the award, and Part 3 study will be the last to be taken by the student before the calculation for an award. Where a greater award is being sought, the CPD framework also normally provides for lesser awards to be made if the full programme is not completed successfully.

In the NFAAR-FD context, all of the shorter study for a Foundation degree counts towards the award in due course, so Part 2 study covers that which will contribute to the calculation for an award in due course, but will not see the completion of all that is required for the award; and Part 3 study is designed to be the last to be taken by the student before, the calculation for an award. Such programmes can often be taken part-time. Here too, there is no condonement of even marginally-failed units, but individual failed units may be re-taken or retrieved in supplementary assessment within limits. A Certificate of Higher Education award may be made in appropriate circumstances if the full programme is not completed successfully.

In the NFAAR-HY context, the short period of study that allows a Foundation degree graduate to reach a Bachelor with honours award requires a differently balanced provision of assessment. It constitutes Part 3 study that will contribute to, and will be the last to be taken by the student before, the calculation for an award. Re-assessment is less common here, and is permitted only in specified circumstances. Some condonement of failed units is allowed where the overall programme learning outcomes will have been met

See QA3 Approval of New Programmes of Study for relevant diagrammatic examples.

#### **Placement**

In the NFAAR-UG context, two types of placement are distinguished within the University's thick- or thin-sandwich programmes. For the purposes of assessment regulations, the relevant distinguishing feature is that while all placement units must include a mechanism for assessing appropriately the learning outcomes of the placement, the enhanced variety also carries 'assessed work in relation to the placement that contributes directly and non-trivially to the degree classification'.

Any placements in other NFAAR contexts are defined more fully by the relevant programme regulations.

NFAAR-CPD v.006 Page 23 of 62

#### Programme Leader

In some contexts (in the NFAAR-FD, NFAAR-HY, and NFAAR-CPD), a Programme Leader carries out the same functions as a Director of Studies.

See also Director of Studies.

#### Programme of study

Programmes of study are those compulsory, optional and elective units defined within approved schemes which lead to named awards of the University.

#### Programme progression requirement (PPR)

In the NFAAR-PGT context, some programmes have separate stages for taught, and then for dissertation/project, units. Normally, where two stages occur in sequence like this, there is a requirement for a given average mark (the taught-stage(s) average — TSA) to be achieved to allow progression to the dissertation/project stage. The minimum such requirement for the TSA is 40%, so the programme progression requirement allows this minimum, or any higher requirement set particular programme regulations, to be identified for comparison with the TSA figure.

See also Taught-stage(s) average.

#### Programme required unit (PRU)

In the NFAAR-PGT context, there may sometimes be the opportunity to undertake study which is not required for progression or award decisions within the programme. The concept of programme required units (PRUs) allows easy reference to those units which are part of the determination of progression or award decisions.

In the NFAAR-FD context, programme required units (PRUs) allow easy reference to those units which are required for eligibility for lesser awards as well as for the normal final award being sought by the student.

#### Progress assessment

Progress assessments are those assessments the results of which contribute to the evaluation of a candidate's fitness to proceed from one stage of the programme of study, to the next.

#### Qualifying marks

A qualifying mark is an 'additional' pass mark used for individual assessment components as well as the usual overall unit pass mark. They are usually used to ensure that students attempt every component of an assessment, or, for example, to prevent students passing by doing very well in the coursework but failing the examination. They are irrelevant to units that are completely assessed by one method. They are frequently used to enforce a limit (often known as a 'bad fail' rule) on the extent to which performance in one method of assessment can compensate for that in another, and are set lower than the overall unit pass mark. (It should be noted that the term no badfail rule is also used in the NFAAR-PGT context to summarize the idea that, at the programme level, no unit may have a result lower than 35% in the overall award calculation.)

For students covered by the NFAAR-UG, an example would be a unit that comprising 50% coursework and 50% examination, each with qualifying marks of 35%. If a student achieves 80% and 20% respectively (*i.e.* a weighted average of 50%), the overall unit result would be a fail, due to the coursework failing the qualifying mark, and the mark would be capped to 39%. In the NFAAR-UG context, if this result required supplementary assessment to be undertaken, this fail mark would be carried forward into overall stage

average, overall programme average, and any award calculations (unless taken as deferred assessment); in the NFAAR-PGT context, it would be possible to achieve a maximum mark of 40% at supplementary assessment.

#### R1

In the NFAAR-FD, this identifies a unit where the degree of failure is modest (≥30%) and where the units is not one that is required to be passed before progression to the next stage could be safely allowed. Students demonstrating performance in this range would, subject to meeting other related criteria such as a minimum overall stage average, be deemed to have a reasonable chance of being successful in supplementary assessment before the start of the next academic period. Beyond this range, students would be required to repeat the failed units (or possibly to repeat the entire stage of study).

See also Overall stage average (OSA), and Stage required unit (SRU).

#### Re-assessment

This is a label used to cover all of the cases where the assessment for a unit (or part of it) is attempted again, without re-taking the teaching and learning of the unit.

#### Repeat

This term is used to denote the undertaking again of the teaching and assessment for a unit or units in the next appropriate academic period, without yet progressing to the next stage of the programme.

Except in circumstances specifically approved (such as some provisions for individual mitigating circumstances, or progression to placements in the NFAAR-UG, or in relation to units that are not stage required units (SRUs) in the NFAAR-PGT), no trailing of failed units to be repeated alongside the requirements of a new stage is permitted.

Repeating individual failed units is not normally permitted within the NFAAR-UG or the NFAAR-HY contexts. Where the repeat of an entire stage is permitted in the NFAAR-UG or in the NFAAR-FD, the marks gained on repeating the entire stage will be reported to the student for feedback purposes and will be used in the overall stage average, in the overall programme average, and in any award calculation.

The repeating of stages is not normally permitted within the NFAAR-PGT.

The repeating of individual failed units is permitted in specific provisions of the NFAAR-FD and NFAAR-CPD — contexts where all units must be passed and no condonement of even marginally-failed units is allowed.

#### Retrieval

This is a label used for the general concept of getting back from failure in some units to a path which could lead on to success overall. It is used in more general contexts where the method of retrieval (e.g., supplementary assessment, re-sitting the assessment, retaking the unit) does not need to be, or is not yet, specified.

#### Review

A student may seek a review of a Board of Studies' decision on any of the grounds listed in Regulation 17. Regulation 17 outlines the review procedures to be adopted in such a case.

NFAAR-CPD v.006 Page 24 of 62

#### Scheme of assessment

Schemes of assessment outline the regulations for progression and conferment associated with particular programmes. Schemes of assessment are published by the departments/schools concerned and are available to students.

#### Scheme of study

Schemes of study are those documents which set down the approved curriculum, rules, requirements and scheme of assessment for a programme of study.

#### Stage

This term allows for easier comparison of programmes which might be studied on a full-time or a part-time basis, and for some which have a more flexible duration of study. The general principle is that stages should be defined first, and that only then will the periods over which they are studied be specified. The concept is particularly helpful in establishing how assessment arrangements fall within the programme.

In practice, within the NFAAR-UG, for most existing full-time first degree programmes, stages correspond to years of study. Considering the simple case of a three-year programme leading to a BSc award, the first year will be termed as Stage 1, the second year as Stage 2, and the final year as Stage 3: each stage would match the Part designations described above.

The significance of the stage concept is that stages can remain the same for part-time students who study over longer periods. If the same BSc programme were undertaken on a part-time basis over six years, each stage might last for two years. The designation of stages allows students at corresponding points on the full-time and part-time versions of programmes to be treated in the same manner for the same purposes.

Sometimes, however, full- and part-time programmes leading to the same award (e.g., a particular Foundation degree) will be separately designed and the stages will not be precisely equivalent. Such designs will take account of the need to offer equitable assessment opportunities.

The stage concept also facilitates the clearer description of programmes where significantly distinct activities occur within a year of study, or where one component straddles two years. Both such events occur commonly in thin-sandwich programmes in the NFAAR-UG context.

In the NFAAR-PGT context, stages may be used to differentiate important separate phases within a year of full-time study, such as two semesters of taught units being distinct from the summer period when a dissertation/project unit is undertaken. Where such distinctions are not important, perhaps because the two types of study occur simultaneously, in parallel, separate stages would not be defined. In the NFAAR-PGT context, stages are also important for establishing the equivalent moments for assessment decision-making in full-time and part-time programmes.

In contexts where modular delivery and creditaccumulation are important, such as the NFAAR-CPD, stages may be more important in providing clarity and coherence in programme structures, such that the longer periods of study and assessment can be better managed.

See QA3 Approval of New Programmes of Study for relevant diagrammatic examples.

#### Stage required unit (SRU)

In some NFAAR-PGT and some NFAAR-FD programmes, separate stages may be identified, but only certain units might be defined as needing to halt progression to the next stage, pending supplementary assessment. Such units would be identified as stage required units (SRUs).

A typical full-time two-stage Master-aiming programme would comprise a first stage of two semesters of taught units, followed by a second stage in the summer period containing the dissertation/project unit. It is possible that just one taught unit — a dissertation-preparation unit, perhaps — would need to be passed before progression to stage 2 could be permitted. Any other single-unit failure from stage 1 might be retrievable by supplementary assessment taken alongside the dissertation/project unit during the summer period.

Thus, the definition of SRUs within programme regulations will determine stage completion requirements, and which units requiring supplementary assessment must be retrieved before progression is permitted.

In this NFAAR-PGT context, a SRU is different from a DEU: the former must be passed before progressing to the next stage, while failure in the latter if not also a SRU, might be retrieved in supplementary assessment alongside the study of the next stage.

## Stand-alone programmes (see also Coexistent programmes)

In some departments, an integrated Master programme might be offered without there being a parallel Bachelor programme running alongside, or in a way that does not treat the two programmes as closely related. Where necessary to distinguish assessment options and outcomes, these programmes are described as stand-alone programmes.

#### Study abroad

Periods of study abroad fall into two categories: those which substitute for, and those which are supplementary to, normal academic study.

Periods of study abroad that substitute for normal academic study in the programme are treated as being such normal academic study for the purposes of progress and final assessment.

Periods of study abroad that are supplementary to normal academic study in the programme are treated as placement periods and are classed as standard or enhanced for assessment purposes.

#### Summative assessments

Summative assessments are those assessments defined within approved schemes of studies to test the achievement of learning outcomes. They are assessments used to determine progression, or eligibility for an award approved by Senate or by any formally-constituted body receiving delegated authority from Senate to undertake such approval. Summative assessments can be either Final assessments or Progress assessments according to the individual scheme of study.

#### Supplementary assessment

Supplementary assessments are those assessments approved by the appropriate Board of Studies for deferred assessment or retrieval of failure in accordance with the provisions of approved schemes. Supplementary assessments are regarded as Final assessments and/or Progress assessments

NFAAR-CPD v.006 Page 25 of 62

in accordance with the provision of the individual scheme of study.

Within the NFAAR-UG, this term is normally used for the opportunity to retrieve failure before the start of the next stage of a programme.

Within the NFAAR-PGT, where study is predominantly or exclusively at a single (Master) level, the term may be more variably used dependent upon the requirements for stage completion, as determined by stage required units (SRUs). The existence of SRUs, as well as the extent of unit failures and their severity, will also influence access to supplementary assessment in the NFAAR-FD context

Within the NFAAR-CPD, having more than a specified limit of supplementary assessment outstanding will prevent the student starting on study for further units.

In the NFAAR-UG context, and in relation to undergraduate programmes within the NFAAR-CPD (leading to Certificate/Diploma of Higher Education, Foundation degree, or Bachelor with honours), unless specifically granted the opportunity to take assessment as for the first time at a supplementary assessment point, students will have the opportunity to gain credit for units then successfully passed and to have the mark gained reported to them for feedback purposes, but the original failure marks will be used in the overall stage average, in the overall programme average, and in any award calculation. Where the assessment is taken as for the first time, the marks gained will be used in the overall stage average, in the overall programme average, and in any award calculation.

In the NFAAR-UG context, there are some relatively rare circumstances in which students may suspend study for a third (second supplementary) attempt to retrieve failure in order to qualify to proceed on a stand-alone programme of study.

In the NFAAR-PGT and the NFAAR-HY contexts, and in relation to postgraduate programmes within the NFAAR-CPD (leading to Postgraduate Certificate/Diploma, or Master), unless specifically granted the opportunity to take assessment as for the first time at a supplementary assessment point, students will have the opportunity to gain credit for units then successfully passed and to have the mark gained reported to them for feedback purposes, but a maximum mark of 40% will be awarded and used (as appropriate) in the overall stage average, in the overall programme average, the taught-stage(s) average, and in any award calculation. Where the assessment is taken as for the first time, the marks gained will be used (as appropriate) in the overall stage average, in the overall programme average, taught-stage(s) average, and in any award calculation.

In the NFAAR -FD context, unless specifically granted the opportunity to take assessment as for the first time at a supplementary assessment point, or to re-take units as for the first time, students will have the opportunity to gain credit for units then successfully passed and to have the mark gained reported to them for feedback purposes, but a maximum mark of 40% will be awarded and used in the overall stage average, in the overall programme average, and in any award calculation. Where the assessment is taken as for the first time, the marks gained will be used in the overall stage average, in the overall programme average, and in any award calculation.

See also Deferred assessment and Qualifying marks.

#### Taught-stage(s) average (TSA)

Many Master programmes covered by the NFAAR-PGT and within the NFAAR-CPD have a taught phase followed by a dissertation/project phase. The calculation of eligibility for awards with merit or with distinction depends on performance in each of these phases meeting the relevant threshold. The TSA is the summary term for the contribution from the former type where it exists as an earlier event chronologically, and is also used to summarize the assessment contribution from that type of activity when the relevant units run in parallel with dissertation/project units contemporaneously. It is calculated according to the weightings of the constituent units (or any other scheme specifically approved for the purpose), as gained at the first attempt, or, where appropriate, according to the rules concerning the maximum mark awardable following supplementary assessment (unless taken as deferred assessment).

See also Dissertation/project average (DPA) and Supplementary assessment.

#### Taught-stage(s) credits (TSC)

Many Master programmes covered by the NFAAR-PGT and within the NFAAR-CPD have a taught phase followed by a dissertation/project phase. The unit falling into the former phase are summarized as taught-stage credits. In some Master programmes, the two types of units (taught, and dissertation/project) run in parallel, contemporaneously. In this case, the TSC credits come from units that are defined as being of the taught type.

See also Dissertation/project credits.

#### Unit

Units are discrete components of learning with defined outcomes and discrete assessment. Each unit has a credit weighting which represents its fractional contribution to a student's notional workload in a full-time academic year of study.

Each unit within the University's modularised academic framework has its own assessment requirements which enable a Board of Examiners for Units to determine whether or not a candidate has achieved the intended learning outcomes.

#### UX

In the NFAAR-FD, this signifies a failed unit (<40%) for which all retrieval and re-take attempts have been exhausted. In such an event, no further attempt at assessment, nor any repeat of a stage, will be permitted.

In this context, the *maximum* number of attempts would be a first main and supplementary assessment, and a re-take main and supplementary assessment: these four opportunities might be reduced in circumstances where the student's performance precludes an opportunity to undertake supplementary assessment.

All retrieval and re-take attempts will have been exhausted for a unit:

- Not passed (P4) at a re-take supplementary assessment:
- b. Not passed (P3) at a re-take main assessment where the unit mark is not R1 (*i.e.*, <30%).

The count up to UX is re-started for a student who is required to repeat an entire stage.

See also P1, P2, P3, P4, and R1.

NFAAR-CPD v.006 Page 26 of 62

#### Whole stage repeat (WSR)

In the NFAAR-UG, in all stages of Parts 1 and 2, students who fail a unit within set limits at the first attempt are normally given a chance to retrieve that failure through supplementary assessment: this is what is meant by "only TWO attempts". Failure beyond those limits will result in more serious immediate consequences. In Part 3, supplementary assessment for the retrieval of failure is only available for designated essential units that might have been failed within set limits: thus the "only TWO attempts" is here only available for DEUs.

In some circumstances, students in Part 1 or Part 2 stages of a programme governed by the NFAAR-UG might be required to repeat the whole stage to retrieve a failing performance that falls within set limits. Where stage repeats are possible within the set limits, the repeating of any stage will be permitted once only, with effect from any stage undertaken (whether for the first or a subsequent time) in the academic year 2011/12.

In Part 3 of programmes governed by the NFAAR-UG, whole stage repeats for the retrieval of failure are not permitted (unless as an appropriate outcome after consideration of individual mitigating circumstances).

Whole stage repeats are not permitted in programmes governed by the NFAAR-PGT or the NFAAR-HY (unless as an appropriate outcome after consideration of individual mitigating circumstances).

Whole stage repeats are not relevant in the NFAAR-CPD context, and are therefore not part of the decision-making parameters there.

A wider range of progression decision tools is available in the NFAAR-FD context. Where a whole stage repeat is permitted here, it is also available once only.

#### Work-based Research Project (WRP)

In the NFAAR-HY, the Work-based Research Project unit has a particular role to play in determining the honours classification. Performance at specified levels in this unit can contribute to a higher classification being awarded in circumstances where such a classification would not be achieved through the overall programme average alone.

See also Overall programme average (OPA).

Awards	
Type of award	Part 3 Stage 1
Programme designed for completely modular delivery and credit accumulation leading to Master within CPD framework	90/90 credits
with alternative PG Dipl award from appropriate units	60/60 credits
or PG Cert award from appropriate units	30/30 credits
Type of award	Part 3 Stage 1
Programme designed for completely modular delivery and credit accumulation leading to PG Dipl within CPD framework	60/60 credits
with alternative PG Cert award from appropriate units	30/30 credits
Type of award	Part 3
	Stage 1
Programme designed for completely modular delivery and credit	30/30

NFAAR-CPD v.006 Page 32 of 62

#### **Appendix 7: Supplementary assessment**

- 1. This appendix references and/or summarizes the detailed provisions concerning supplementary assessment.
- 2. Supplementary assessments relating to NFAAR-CPD contexts are defined in Appendix 2: Definitions in the following terms:

Supplementary assessments are those assessments approved by the appropriate Board of Studies for deferred assessment or retrieval of failure in accordance with the provisions of approved schemes. Supplementary assessments are regarded as Final assessments and/or Progress assessments in accordance with the provision of the individual scheme of study.

*[...1* 

Within the NFAAR-CPD, having more than a specified limit of supplementary assessment outstanding will prevent the student starting on study for further units.

In [...] relation to undergraduate programmes within the NFAAR-CPD (leading to Certificate/Diploma of Higher Education, Foundation degree, or Bachelor with honours), unless specifically granted the opportunity to take assessment as for the first time at a supplementary assessment point, students will have the opportunity to gain credit for units then successfully passed and to have the mark gained reported to them for feedback purposes, but the original failure marks will be used in the overall stage average, in the overall programme average, and in any award calculation. Where the assessment is taken as for the first time, the marks gained will be used in the overall stage average, in the overall programme average, and in any award calculation.

In [...] relation to postgraduate programmes within the NFAAR-CPD (leading to Postgraduate Certificate/Diploma, or Master), unless specifically granted the opportunity to take assessment as for the first time at a supplementary assessment point, students will have the opportunity to gain credit for units then successfully passed and to have the mark gained reported to them for feedback purposes, but a maximum mark of 40% will be awarded and used (as appropriate) in the overall stage average, in the overall programme average, the taught-stage(s) average, and in any award calculation. Where the assessment is taken as for the first time, the marks gained will be used (as appropriate) in the overall stage average, in the overall programme average, taught-stage(s) average, and in any award calculation.

[...]

See also Deferred assessment and Qualifying marks.

- 3. Normally, students study a unit and take the assessments associated with it. Subject to the constraints within the progression and award rules of the NFAAR-CPD, if the student does not pass at this first attempt at the assessment, a second attempt to satisfy the assessment requirements for the units will be permitted. Supplementary assessments will be taken at the student's normal examination venue, in the normal supplementary assessment periods.
- 4. Supplementary assessment in excess of the specified limit of 12 credits (or where a prerequisite unit must be passed before a particular further unit can be taken) will normally be required to be passed before progression to the study of further units is permitted. Further programme design information is given in QA3 Approval of New Programmes of Study.
- 5. Information about the award of credits and the use of marks after the successful retrieval of failed units in supplementary assessment is given in para. 70 of the main NFAAR-CPD text, and in the definitions for Overall programme average (OPA), Overall stage average (OSA), Qualifying marks, Supplementary assessment (see Appendix 2: Definitions). Students will receive information about the marks achieved in supplementary assessment for the retrieval of failure through the student record system, and will be informed by their departments/schools of the significance of particular mark ranges according to the provisions of para. 10 below, or any other approved range.
- 6. Formal University transcripts will show the marks achieved in deferred assessment.
- 7. Where a student on an undergraduate CPD programme successfully retrieves failure, credits will be awarded for the retrieved unit(s): the original mark will be recorded on the student's transcript, and where retrieval affects a final assessment the original mark will be used in the calculation of the final award and, where appropriate, degree classification. With effect from 1 June 2009, the exit summary transcript will not show marks achieved in supplementary assessment taken for the retrieval of failure, but will show a category of outcome (Pass after supplementary assessment; Condoned pass after supplementary assessment; Fail after supplementary assessment). The full transcript will show marks

NFAAR-CPD v.006 Page 33 of 62

- achieved in supplementary assessment taken for the retrieval of failure together with a category of outcome as described above.
- Where a student on a postgraduate CPD programme successfully retrieves failure, credit 8. will be awarded for the retrieved unit and a maximum mark of 40% will be awarded and used in the calculation for the determination of eligibility for a Postgraduate Certificate, Postgraduate Diploma, or Master degree with Merit or with Distinction if appropriate. With effect from 1 June 2009, the exit summary transcript will not show marks achieved in supplementary assessment taken for the retrieval of failure, but will show a category of outcome (Pass after supplementary assessment; Condoned pass after supplementary assessment; Fail after supplementary assessment). The full transcript will show marks achieved in supplementary assessment taken for the retrieval of failure together with a category of outcome as described above. This approach will be implemented for all students with results from earlier years of study if/as judged practicable, in consultation between SREO/Computing Services and the relevant academic departments/schools: where this approach is not used for earlier years' results of supplementary assessment for the retrieval of failure by candidates on PGT programmes, the former practice of additionally recording the maximum mark of 40% awarded at the second attempt should be retained.
- 9. Deferred assessment is a particular form of supplementary assessment opportunity, and is described in the definitions for *Deferred assessment*, *Overall programme average (OPA)*, *Overall stage average (OSA)*, *Qualifying marks*, *Supplementary assessment* (see Appendix 2: Definitions). Deferred assessment will, where possible, take the same form as the original assessment.
- **10.** The responsibility for notifying a student of a requirement to undertake supplementary assessment is described in QA35 Assessment Procedures for Taught Programmes of Study.
- **11.** Publication of supplementary assessment results is described in QA35 Assessment Procedures for Taught Programmes of Study.
- **12.** The normal period for supplementary assessment in the form of examinations is in late August/early September as specified in the appropriate academic year chart.
- 13. Unless an exemption from this provision of the NFAAR-CPD is approved for particular circumstances, the values represented by the code P2 in the detailed decision-making criteria for supplementary assessment for the retrieval of failure will be as follows:
  - **a.** The normal pass mark for a supplementary assessment will be 40%, in common with the P1 value used for the main assessments.
  - b. The alternative pass mark where mandatory extra work is required (whereby the student has to re-work an examination paper in her/his own time) will be 70% (which if gained will result in the use of the capped normal pass mark of 40% being used in the calculation for the determination of eligibility for postgraduate awards, with the category of outcome (Pass after supplementary assessment) used on the transcripts.

NFAAR-CPD v.006 Page 34 of 62

#### **Appendix 8: See QA35**

The contents of this appendix has been moved to QA35 Assessment Procedures for Taught Programmes of Study, where all of the same information is provided to support assessment decision-making processes, as distinct from the regulations available here.

#### **Appendix 9: Individual mitigating circumstances**

- 1. With effect from 2 November 2009, the principles and procedures governing consideration of individual mitigating circumstances in relation to assessments are set out in *Individual Mitigating Circumstances & Assessment: Principles & Procedures within & outside the New Framework for Assessment: Assessment Regulations*, abbreviated as *IMCA*.
- 2. All students and staff requiring information about individual mitigating circumstances and assessment should consult the IMCA document and other associated information.

See: Individual Mitigating Circumstances & Assessment: Principles & Procedures within & outside the New Framework for Assessment: Assessment Regulations, <a href="http://www.bath.ac.uk/registry/imc/">http://www.bath.ac.uk/registry/imc/</a>.

## Appendix 10: Exemptions from provisions of the NFAAR-CPD

#### List of areas with exemptions

- **1.** Department of Pharmacy & Pharmacology (see Pharmacy & Pharmacology, Department of, below).
- 2. No exemptions have been granted in the following areas:
  - a. Division for Lifelong Learning
  - **b.** Faculty of Engineering & Design
  - c. Faculty of Humanities & Social Sciences
  - d. School of Management

#### Brief descriptions of exemptions granted

#### Pharmacy & Pharmacology, Department of

- 3. Departmental documentation will contain fuller details, but in summary the two units Pharmacist Prescribing Programme (PA50249) [Pharmacist Independent Prescribing] and Drug Safety and Surveillance (PA50296) [Drug Safety Surveillance] will each have a pass mark of 50% in place of the normal common 40% pass mark. (Exemption granted by University Learning, Teaching & Quality Committee, 18 November 2011.)
- 4. Departmental documentation will contain fuller details, but in summary students taking the unit Pharmacist Prescribing Programme (PA50249) [Pharmacist Independent Prescribing] may only make two attempts at this unit. (Exemption granted on behalf of University Learning, Teaching & Quality Committee by chair's action on 8 March 2012.)
- 5. Departmental documentation will contain fuller details, but in summary students taking the unit Pharmacist Independent Prescribing (PA50249) will not be given the opportunity to retrieve failure through supplementary assessment should serious patient harm be detected in any assessment element; rather, students will need to retake the unit. (Exemption granted on behalf of University Learning, Teaching & Quality Committee by chair's action on 22 July 2014.)

NFAAR-CPD v.006 Page 38 of 62

## Appendix 11: UG CPD study to Cert HE award

- 1. This appendix relates to the detailed assessment criteria for:
  - Undergraduate study within the CPD framework aiming towards an award of Certificate of Higher Education, at
  - The close of the main assessment period or after supplementary assessments.
- 2. The following abbreviations and rules apply in these detailed criteria (for fuller descriptions see: Appendix 2: Definitions):
  - LCH = learning contract units at H-level.
  - LCR = learning contract units awaiting re-assessment.
  - LCU = learning contract units.
  - OPA = overall programme average.
  - OSA = overall stage average.
  - P1 = "passed 1st attempt" and means ≥ 40%.
  - P2 = "passed 2nd attempt" see Appendix 7: Supplementary assessment.
- 3. The following detailed assessment criteria will be applied in sequence at the end of each round of assessments, whether main or supplementary, in respect of compulsory or optional/elective units (but excluding extra-curricular units) that form part of the agreed programme of study.
- **4.** After due consideration of the results by the Board of Examiners for Programmes and in the absence of any relevant individual mitigating circumstances, a student who has not exceeded the permitted period of study and:
  - **a.** Has passed (P1 or P2) in all learning contract units (LCU) worth 60 credits, may be allowed to choose whether to seek to register for a higher award (*e.g.*, Dipl HE, Bachelor degree).
  - **b.** Has passed (P1 or P2) in all learning contract units (LCU) worth 60 credits, will be awarded a Certificate of Higher Education.
  - **c.** Has not yet passed (P1 or P2) in all learning contract units (LCU) worth 60 credits, may be allowed to choose whether to continue with the existing programme of study, or to seek to transfer to another programme or to withdraw, if/as appropriate.
  - d. Has not yet passed (P1 or P2) in all learning contract units (LCU) worth 60 credits and wishes to continue with the existing programme of study, and has no more than 12 credits' worth of failed units (not P1) awaiting supplementary assessment, may proceed to the study of further units but will be required to take supplementary assessment in each failed unit.
  - e. Has not yet passed (P1 or P2) in all learning contract units (LCU) worth 60 credits and wishes to continue with the existing programme of study, but has more than 12 credits' worth of failed units (not P1) awaiting supplementary assessment, will be required to take supplementary assessment in each failed unit, with a view then to qualifying to proceed to the study of further units.
- 5. The above decision-making process is illustrated as a flowchart below in Figure 3.

## Appendix 12: UG CPD study to Dipl HE or FD award

- 1. This appendix relates to the detailed assessment criteria for:
  - Undergraduate study within the CPD framework aiming towards an award of Diploma of Higher Education or a Foundation degree, at
  - The close of the main assessment period or after supplementary assessments.
- 2. The following abbreviations and rules apply in these detailed criteria (for fuller descriptions see: Appendix 2: Definitions):
  - LCH = learning contract units at H-level.
  - LCR = learning contract units awaiting re-assessment.
  - LCU = learning contract units.
  - OPA = overall programme average.
  - OSA = overall stage average.
  - P1 = "passed 1st attempt" and means ≥ 40%.
  - P2 = "passed 2nd attempt" see Appendix 7: Supplementary assessment.
- 3. The following detailed assessment criteria will be applied in sequence at the end of each round of assessments, whether main or supplementary, in respect of compulsory or optional/elective units (but excluding extra-curricular units) that form part of the agreed programme of study.
- **4.** After due consideration of the results by the Board of Examiners for Programmes and in the absence of any relevant individual mitigating circumstances, a student who has not exceeded the permitted period of study and:
  - **a.** Has passed (P1 or P2) in all learning contract units (LCU) worth 120 credits, may be allowed to choose whether to seek to register for a higher award (*e.g.*, Bachelor degree).
  - **b.** Has passed (P1 or P2) in all learning contract units (LCU) worth 120 credits, will be awarded a Diploma of Higher Education/Foundation degree, as appropriate.
  - c. Has passed (P1 or P2) in learning contract units (LCU) worth 60 credits but has not yet passed (P1 or P2) in all learning contract units (LCU) worth 120 credits, may be allowed to choose whether to continue with the existing programme of study, or to be awarded a Certificate of Higher Education, or to seek to transfer to another programme or to withdraw, if/as appropriate.
  - d. Has passed (P1 or P2) in learning contract units (LCU) worth 60 credits but has not yet passed (P1 or P2) in all learning contract units (LCU) worth 120 credits and wishes to continue with the existing programme of study, and has no more than 12 credits' worth of failed units (not P1) awaiting supplementary assessment, may proceed to the study of further units but will be required to take supplementary assessment in each failed unit.
  - e. Has passed (P1 or P2) in learning contract units (LCU) worth 60 credits but has not yet passed (P1 or P2) in all learning contract units (LCU) worth 120 credits and wishes to continue with the existing programme of study, but has more than 12 credits' worth of failed units (not P1) awaiting supplementary assessment, will be required to take supplementary assessment in each failed unit, with a view then to qualifying to proceed to the study of further units.

NFAAR-CPD v.006 Page 41 of 62

- f. Has not yet passed (P1 or P2) in learning contract units (LCU) worth 60 credits, may be allowed to choose whether to continue with the existing programme of study, or to seek to transfer to another programme or to withdraw, if/as appropriate.
- g. Has not yet passed (P1 or P2) in learning contract units (LCU) worth 60 credits and wishes to continue with the existing programme of study, and has no more than 12 credits' worth of failed units (not P1) awaiting supplementary assessment, may proceed to the study of further units but will be required to take supplementary assessment in each failed unit.
- h. Has not yet passed (P1 or P2) in learning contract units (LCU) worth 60 credits and wishes to continue with the existing programme of study, but has more than 12 credits' worth of failed units (not P1) awaiting supplementary assessment, will be required to take supplementary assessment in each failed unit, with a view then to qualifying to proceed to the study of further units.
- 5. The above decision-making process is illustrated as a flowchart below in Figure 4.

## Appendix 13: UG CPD study to Bachelor degree award

- 1. This appendix relates to the detailed assessment criteria for:
  - Undergraduate study within the CPD framework aiming towards an award of a Bachelor degree with honours, at
  - The close of the main assessment period or after supplementary assessments.
- 2. The following abbreviations and rules apply in these detailed criteria (for fuller descriptions see: Appendix 2: Definitions):
  - LCH = learning contract units at H-level.
  - LCR = learning contract units awaiting re-assessment.
  - LCU = learning contract units.
  - OPA = overall programme average.
  - OSA = overall stage average.
  - P1 = "passed 1st attempt" and means ≥ 40%.
  - P2 = "passed 2nd attempt" see Appendix 7: Supplementary assessment.
- 3. The following detailed assessment criteria will be applied in sequence at the end of each round of assessments, whether main or supplementary, in respect of compulsory or optional/elective units (but excluding extra-curricular units) that form part of the agreed programme of study.
- **4.** After due consideration of the results by the Board of Examiners for Programmes and in the absence of any relevant individual mitigating circumstances, a student who has not exceeded the permitted period of study and:
  - **a.** Has passed (P1 or P2) in all learning contract units (LCU) worth 180 credits, will be awarded a Bachelor degree, classified according to the criteria set out in Appendix 14: Classification for Bachelor with honours award from UG CPD study.
  - b. Has passed (P1 or P2) in learning contract units (LCU) worth 120 credits but has not yet passed (P1 or P2) in all learning contract units (LCU) worth 180 credits, may be allowed to choose whether to continue with the existing programme of study, or to be awarded a Diploma of Higher Education/Foundation degree, as appropriate, or to seek to transfer to another programme or to withdraw, if/as appropriate.
  - c. Has passed (P1 or P2) in learning contract units (LCU) worth 120 credits but has not yet passed (P1 or P2) in all learning contract units (LCU) worth 180 credits and wishes to continue with the existing programme of study, and has no more than 12 credits' worth of failed units (not P1) awaiting supplementary assessment, may proceed to the study of further units but will be required to take supplementary assessment in each failed unit.
  - d. Has passed (P1 or P2) in learning contract units (LCU) worth 120 credits but has not yet passed (P1 or P2) in all learning contract units (LCU) worth 180 credits and wishes to continue with the existing programme of study, but has more than 12 credits' worth of failed units (not P1) awaiting supplementary assessment, will be required to take supplementary assessment in each failed unit, with a view then to qualifying to proceed to the study of further units.
  - e. Has passed (P1 or P2) in learning contract units (LCU) worth 60 credits but has not yet passed (P1 or P2) in learning contract units (LCU) worth 120 credits, may be allowed to choose whether to continue with the existing programme of study, or to be awarded a Certificate of Higher Education, or to seek to transfer to another programme or to withdraw, if/as appropriate.

NFAAR-CPD v.006 Page 45 of 62

- f. Has passed (P1 or P2) in learning contract units (LCU) worth 60 credits but has not yet passed (P1 or P2) in learning contract units (LCU) worth 120 credits and wishes to continue with the existing programme of study, and has no more than 12 credits' worth of failed units (not P1) awaiting supplementary assessment, may proceed to the study of further units but will be required to take supplementary assessment in each failed unit.
- g. Has passed (P1 or P2) in learning contract units (LCU) worth 60 credits but has not yet passed (P1 or P2) in learning contract units (LCU) worth 120 credits and wishes to continue with the existing programme of study, but has more than 12 credits' worth of failed units (not P1) awaiting supplementary assessment, will be required to take supplementary assessment in each failed unit, with a view then to qualifying to proceed to the study of further units.
- h. Has not yet passed (P1 or P2) in learning contract units (LCU) worth 60 credits, may be allowed to choose whether to continue with the existing programme of study, or to seek to transfer to another programme or to withdraw, if/as appropriate.
- i. Has not yet passed (P1 or P2) in learning contract units (LCU) worth 60 credits and wishes to continue with the existing programme of study, and has no more than 12 credits' worth of failed units (not P1) awaiting supplementary assessment, may proceed to the study of further units but will be required to take supplementary assessment in each failed unit.
- j. Has not yet passed (P1 or P2) in learning contract units (LCU) worth 60 credits and wishes to continue with the existing programme of study, but has more than 12 credits' worth of failed units (not P1) awaiting supplementary assessment, will be required to take supplementary assessment in each failed unit, with a view then to qualifying to proceed to the study of further units.
- **5.** The above decision-making process is illustrated as a flowchart below in Figure 5.

# Appendix 14: Classification for Bachelor with honours award from UG CPD study

- 1. This appendix relates to the detailed assessment criteria for:
  - Successfully completed undergraduate study within the CPD framework aiming towards an award of Bachelor degree with honours, where
  - The student has met the criteria set out in para. 4.a of Appendix 13: UG CPD study to Bachelor degree award.
- 2. The following abbreviations and rules apply in these detailed criteria (for fuller descriptions see: Appendix 2: Definitions):
  - LCH = learning contract units at H-level.
  - LCR = learning contract units awaiting re-assessment.
  - LCU = learning contract units.
  - OPA = overall programme average.
  - OSA = overall stage average.
  - P1 = "passed 1st attempt" and means ≥ 40%.
  - P2 = "passed 2nd attempt" see Appendix 7: Supplementary assessment.
- **3.** The following detailed assessment criteria will be applied in sequence.
- 4. After due consideration of the results by the Board of Examiners for Programmes and in the absence of any relevant individual mitigating circumstances, a student who has not exceeded the permitted period of study and
  - **a.** Has an overall programme average (OPA) of at least 70.00%, will be awarded a degree with First class honours.
  - **b.** Has an overall programme average (OPA) of at least 68.00%, and gained at least 70% in each of a number of learning contract units at H-level (LCH) worth at least 30 credits, will be awarded a degree with First class honours.
  - **c.** Has an overall programme average (OPA) of at least 60.00%, will be awarded a degree with Second class honours Upper division.
  - **d.** Has an overall programme average (OPA) of at least 58.00%, and gained at least 60% in each of a number of learning contract units at H-level (LCH) worth at least 30 credits, will be awarded a degree with Second class honours Upper division.
  - **e.** Has an overall programme average (OPA) of at least 50.00%, will be awarded a degree with Second class honours Lower division.
  - f. Has an overall programme average (OPA) of at least 48.00%, and gained at least 50% in each of a number of learning contract units at H-level (LCH) worth at least 30 credits, will be awarded a degree with Second class honours Lower division.
  - **g.** Has an overall programme average (OPA) of at least 40.00%, will be awarded a degree with Third class honours.
- **5.** The above decision-making process is illustrated as a flowchart below in Figure 6.

NFAAR-CPD v.006 Page 49 of 62

## Appendix 15: PG CPD study to PG Cert award

- 1. This appendix relates to the detailed assessment criteria for:
  - Postgraduate study within the CPD framework aiming towards an award of Postgraduate Certificate, at
  - The close of the main assessment period or after supplementary assessments.
- 2. The following abbreviations and rules apply in these detailed criteria (for fuller descriptions see: Appendix 2: Definitions):
  - DPA = dissertation/project average.
  - LCR = learning contract units awaiting re-assessment.
  - LCU = learning contract units.
  - OPA = overall programme average.
  - TSA = taught-stage(s) average.
  - P1 = "passed 1st attempt" and means ≥ 40%.
  - P2 = "passed 2nd attempt" see Appendix 7: Supplementary assessment.
- 3. The following detailed assessment criteria will be applied in sequence at the end of each round of assessments, whether main or supplementary, in respect of compulsory or optional/elective units (but excluding extra-curricular units) that form part of the agreed programme of study.
- **4.** After due consideration of the results by the Board of Examiners for Programmes and in the absence of any relevant individual mitigating circumstances, a student who has not exceeded the permitted period of study and:
  - **a.** Has passed (P1 or P2) in all learning contract units (LCU) worth 30 credits, may be allowed to choose whether to seek to register for a higher award (*e.g.*, PG Diploma, Master degree).
  - **b.** Has passed (P1 or P2) in all learning contract units (LCU) worth 30 credits and has an overall programme average (OPA) of at least 70.00%, will be awarded a Postgraduate Certificate with distinction.
  - **c.** Has passed (P1 or P2) in all learning contract units (LCU) worth 30 credits and has an overall programme average (OPA) of at least 60.00%, will be awarded a Postgraduate Certificate with merit.
  - **d.** Has passed (P1 or P2) in all learning contract units (LCU) worth 30 credits, will be awarded a Postgraduate Certificate.
  - **e.** Has not yet passed (P1 or P2) in all learning contract units (LCU) worth 30 credits, may be allowed to choose whether to continue with the existing programme of study, or to seek to transfer to another programme or to withdraw, if/as appropriate.
  - f. Has not yet passed (P1 or P2) in all learning contract units (LCU) worth 30 credits and wishes to continue with the existing programme of study, and has no more than 12 credits' worth of failed units (not P1) awaiting supplementary assessment, may proceed to the study of further units but will be required to take supplementary assessment in each failed unit.
  - **g.** Has not yet passed (P1 or P2) in all learning contract units (LCU) worth 30 credits and wishes to continue with the existing programme of study, but has more than 12 credits' worth of failed units (not P1) awaiting supplementary assessment, will be

NFAAR-CPD v.006 Page 51 of 62

required to take supplementary assessment in each failed unit, with a view then to qualifying to proceed to the study of further units.

**5.** The above decision-making process is illustrated as a flowchart below in Figure 7.

## Appendix 16: PG CPD study to PG Dipl award

- 1. This appendix relates to the detailed assessment criteria for:
  - Postgraduate study within the CPD framework aiming towards an award of Postgraduate Diploma, at
  - The close of the main assessment period or after supplementary assessments.
- **2.** The following abbreviations and rules apply in these detailed criteria (for fuller descriptions see: Appendix 2: Definitions):
  - DPA = dissertation/project average.
  - LCR = learning contract units awaiting re-assessment.
  - LCU = learning contract units.
  - OPA = overall programme average.
  - TSA = taught-stage(s) average.
  - P1 = "passed 1st attempt" and means ≥ 40%.
  - P2 = "passed 2nd attempt" see Appendix 7: Supplementary assessment.
- 3. The following detailed assessment criteria will be applied in sequence at the end of each round of assessments, whether main or supplementary, in respect of compulsory or optional/elective units (but excluding extra-curricular units) that form part of the agreed programme of study.
- **4.** After due consideration of the results by the Board of Examiners for Programmes and in the absence of any relevant individual mitigating circumstances, a student who has not exceeded the permitted period of study and:
  - **a.** Has passed (P1 or P2) in all learning contract units (LCU) worth 60 credits, may be allowed to choose whether to seek to register for a higher award (*e.g.*, Master degree).
  - **b.** Has passed (P1 or P2) in all learning contract units (LCU) worth 60 credits and has an overall programme average (OPA) of at least 70.00%, will be awarded a Postgraduate Diploma with distinction.
  - **c.** Has passed (P1 or P2) in all learning contract units (LCU) worth 60 credits and has an overall programme average (OPA) of at least 60.00%, will be awarded a Postgraduate Diploma with merit.
  - **d.** Has passed (P1 or P2) in all learning contract units (LCU) worth 60 credits, will be awarded a Postgraduate Diploma.
  - **e.** Has passed (P1 or P2) in learning contract units (LCU) worth 30 credits but has not yet passed (P1 or P2) in all learning contract units (LCU) worth 60 credits, may be allowed to choose whether to continue with the existing programme of study, or to be awarded a Postgraduate Certificate, or to seek to transfer to another programme or to withdraw, if/as appropriate.
  - f. Has passed (P1 or P2) in learning contract units (LCU) worth 30 credits but has not yet passed (P1 or P2) in all learning contract units (LCU) worth 60 credits and wishes to continue with the existing programme of study, and has no more than 12 credits' worth of failed units (not P1) awaiting supplementary assessment, may proceed to the study of further units but will be required to take supplementary assessment in each failed unit.

NFAAR-CPD v.006 Page 55 of 62

- g. Has passed (P1 or P2) in learning contract units (LCU) worth 30 credits but has not yet passed (P1 or P2) in all learning contract units (LCU) worth 60 credits and wishes to continue with the existing programme of study, but has more than 12 credits' worth of failed units (not P1) awaiting supplementary assessment, will be required to take supplementary assessment in each failed unit, with a view then to qualifying to proceed to the study of further units.
- h. Has not yet passed (P1 or P2) in learning contract units (LCU) worth 30 credits, may be allowed to choose whether to continue with the existing programme of study, or to seek to transfer to another programme or to withdraw, if/as appropriate.
- i. Has not yet passed (P1 or P2) in learning contract units (LCU) worth 30 credits and wishes to continue with the existing programme of study, and has no more than 12 credits' worth of failed units (not P1) awaiting supplementary assessment, may proceed to the study of further units but will be required to take supplementary assessment in each failed unit.
- j. Has not yet passed (P1 or P2) in learning contract units (LCU) worth 30 credits and wishes to continue with the existing programme of study, but has more than 12 credits' worth of failed units (not P1) awaiting supplementary assessment, will be required to take supplementary assessment in each failed unit, with a view then to qualifying to proceed to the study of further units.
- 5. The above decision-making process is illustrated as a flowchart below in Figure 8.

## Appendix 17: PG CPD study to Master award

- 1. This appendix relates to the detailed assessment criteria for:
  - Postgraduate study within the CPD framework aiming towards an award of Master degree, at
  - The close of the main assessment period or after supplementary assessments.
- 2. The following abbreviations and rules apply in these detailed criteria (for fuller descriptions see: Appendix 2: Definitions):
  - DPA = dissertation/project average.
  - LCR = learning contract units awaiting re-assessment.
  - LCU = learning contract units.
  - OPA = overall programme average.
  - TSA = taught-stage(s) average.
  - P1 = "passed 1st attempt" and means ≥ 40%.
  - P2 = "passed 2nd attempt" see Appendix 7: Supplementary assessment.
- 3. The following detailed assessment criteria will be applied in sequence at the end of each round of assessments, whether main or supplementary, in respect of compulsory or optional/elective units (but excluding extra-curricular units) that form part of the agreed programme of study.
- **4.** After due consideration of the results by the Board of Examiners for Programmes and in the absence of any relevant individual mitigating circumstances, a student who has not exceeded the permitted period of study and:
  - **a.** Has passed (P1 or P2) in all learning contract units (LCU) worth 90 credits, and has all of (i) an overall programme average (OPA) of at least 70.00%, (ii) a dissertation/project average (DPA) of at least 70.00%, and (iii) a taught stage(s) average (TSA) of at least 60.00%, will be awarded the degree of Master with distinction.
  - **b.** Has passed (P1 or P2) in all learning contract units (LCU) worth 90 credits, and has all of (i) an overall programme average (OPA) of at least 60.00%, (ii) a dissertation/project average (DPA) of at least 60.00%, and (iii) a taught stage(s) average (TSA) of at least 50.00%, will be awarded the degree of Master with merit.
  - c. Has passed (P1 or P2) in all learning contract units (LCU) worth 90 credits and has both a dissertation/project average (DPA) of at least 40.00% and an overall programme average (OPA) of at least 40.00%, will be awarded the degree of Master.
  - d. Has passed (P1 or P2) in learning contract units (LCU) worth 60 credits but has not yet passed (P1 or P2) in all learning contract units (LCU) worth 90 credits, may be allowed to choose whether to continue with the existing programme of study, or to be awarded a Postgraduate Diploma or Postgraduate Certificate, as appropriate, or to seek to transfer to another programme or to withdraw, if/as appropriate.
  - e. Has passed (P1 or P2) in learning contract units (LCU) worth 60 credits but has not yet passed (P1 or P2) in all learning contract units (LCU) worth 90 credits and wishes to continue with the existing programme of study, and has no more than 12 credits' worth of failed units (not P1) awaiting supplementary assessment, may proceed to the study of further units but will be required to take supplementary assessment in each failed unit.

NFAAR-CPD v.006 Page 59 of 62

- f. Has passed (P1 or P2) in learning contract units (LCU) worth 60 credits but has not yet passed (P1 or P2) in all learning contract units (LCU) worth 90 credits and wishes to continue with the existing programme of study, but has more than 12 credits' worth of failed units (not P1) awaiting supplementary assessment, will be required to take supplementary assessment in each failed unit, with a view then to qualifying to proceed to the study of further units.
- g. Has passed (P1 or P2) in learning contract units (LCU) worth 30 credits but has not yet passed (P1 or P2) in learning contract units (LCU) worth 60 credits, may be allowed to choose whether to continue with the existing programme of study, or to be awarded a Postgraduate Certificate, or to seek to transfer to another programme or to withdraw, if/as appropriate.
- h. Has passed (P1 or P2) in learning contract units (LCU) worth 30 credits but has not yet passed (P1 or P2) in learning contract units (LCU) worth 60 credits and wishes to continue with the existing programme of study, and has no more than 12 credits' worth of failed units (not P1) awaiting supplementary assessment, may proceed to the study of further units but will be required to take supplementary assessment in each failed unit.
- i. Has passed (P1 or P2) in learning contract units (LCU) worth 30 credits but has not yet passed (P1 or P2) in learning contract units (LCU) worth 60 credits and wishes to continue with the existing programme of study, but has more than 12 credits' worth of failed units (not P1) awaiting supplementary assessment, will be required to take supplementary assessment in each failed unit, with a view then to qualifying to proceed to the study of further units.
- **j.** Has not yet passed (P1 or P2) in learning contract units (LCU) worth 30 credits, may be allowed to choose whether to continue with the existing programme of study, or to seek to transfer to another programme or to withdraw, if/as appropriate.
- k. Has not yet passed (P1 or P2) in learning contract units (LCU) worth 30 credits and wishes to continue with the existing programme of study, and has no more than 12 credits' worth of failed units (not P1) awaiting supplementary assessment, may proceed to the study of further units but will be required to take supplementary assessment in each failed unit.
- I. Has not yet passed (P1 or P2) in learning contract units (LCU) worth 30 credits and wishes to continue with the existing programme of study, but has more than 12 credits' worth of failed units (not P1) awaiting supplementary assessment, will be required to take supplementary assessment in each failed unit, with a view then to qualifying to proceed to the study of further units.
- 5. The above decision-making process is illustrated as a flowchart below in Figure 9.
